MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE, DEVELOPMENTS:

The Indian capital market represents one of the fastest-growing economies in the world. Capital markets indicate a country's health and growth. India's primary and secondary capital markets boost the country's economy and corporate liquidity. The various segments of the Indian capital markets have grown throughout time. Short-term money market loans aids in reducing financial sector liquidity shortages. The Indian capital market has demonstrated its resilience in the face of unanticipated shocks like as the epidemic. In the past year, both equities and debt capital markets in India have experienced unprecedented levels of activity. India's stock markets have altered its financial infrastructure and more companies have been using IPOs for financing.

Equity capital markets in India have shown resilience amidst one of the most turbulent times, the amount raised in FY 2022-23 is still the third highest ever in terms of IPO funds raised after FY 2021-22 and FY 2018-19. The market throughout the year remained volatile as a result 2/3rd of the IPO came in just 3 months (May, November and December). 37 corporates raised over ` 52,000 crore through IPOs in FY 2022-23 as compared to 53 corporates that raised over 1.1 lakh crore through IPOs in FY 2021-22.

The global economy continued to man oeuvre through uncertainties in FY23. Uncertainties pertaining to the likely escalation of Russia-Ukraine war, continuous disruption in global supply chain leading to inflation globally due to closing down of China were amongst the major events that provided maximum volatility to the markets. Expectation of an imminent recession got stronger as major central banks continued to tighten monetary conditions. However, on a positive note in mid FY23, notable improvement in supply chains led to easing inflationary pressures and entire commodity prices moderated, Brent crude prices peaked in FY23 and moderated ~35% by year end.

The brokerage industry is expected to have a record year in FY 2022-23, because of strong participation from individual investors and favourable systemic liquidity, according to ICRA. According to a recent report by ICRA, the industry is expected to generate total revenue of ` 27,000-28,000 crore in FY 2021-22, representing a 28-33% YoY increase. Moreover, with a projected industry total turnover of ` 28,500-29,000 crore in FY 2022-23, revenue growth is expected to moderate to 5-7%; and will be dependent on capital market performance and maintaining similar yields as in prior years.

INDIAN CAPITAL MARKET:

After witnessing some of the sharpest rallies in FY21-22, following the steep decline induced by the pandemic, Indian equity markets performed reasonably well in FY22-23. It had to grapple with several headwinds, such as the continuous northward movement of crude oil prices coupled with supplyside disruptions, which led to inflationary pressure that drove up commodity and food prices. The markets saw relentless selling by foreign investors along with the emergence of new COVID variants, the hawkish stance of the US Fed and geopolitical conflict.

Despite these developments, the benchmark stock market indices in India – Sensex and Nifty 50 – surged by 18.3% and 18.9%, respectively. This performance was supported by strong corporate earnings, sharp rise in COVID-19 vaccination, opening up of business establishments across the country and, more importantly, explosive growth in the size of India's retail investor segment that is increasingly looking at equity investments as a viable and sustainable option to the sublime returns offered by risk free assets.

GLOBAL CAPITAL MARKETS

The country's financial services sector consists of capital markets, the insurance sector and non-banking financial companies (NBFCs). India's gross national savings (GDS) as a percentage of Gross Domestic Product (GDP) stood at 30.73% in 2020. The number of Ultra High Net Worth Individuals (UHNWI) is estimated to increase from 6,884 in 2021 to 11,198 in 2025. India's UHNWIs are likely to expand by 63% in the next five years. India is expected to have 6.11 lakh HNWI in 2025.

The Government of India has taken various steps to deepen reforms in the capital market, including simplification of the IPO process, which allows qualified foreign investors (QFIs) to access the Indian bond market. In 2019, investment in Indian equities by foreign portfolio investors (FPIs) touched a five-year high of Rs. 101,122 crore (US\$ 14.47 billion). Investment by FPIs in India's capital market reached a net US\$ 1.42 billion (Rs. 11,631 crore) in April 2023. Investment by FPIs in India's capital market reached a net US\$ 177.73 billion (Rs. 12.52 lakh crore) between FY21 (till August 10, 2020). In FY22, US\$ 14.55 billion was raised across 127 initial public offerings (IPOs). The number of companies listed on the NSE increased from 135 in 1995 to 5,311 as of January 2023.

Developed markets outperformed emerging markets (EMs), with the MSCI World Index rising by 20.1%, on the back of positive returns for the third year in a row. MSCI Emerging Markets Index ended 2021 with a loss of 4.6% as a result of significant underperformance of Chinese equities, unfavorable regulatory actions and concerns around global policy tightening.

Across the globe, asset classes are witnessing unparalleled growth, driven by enhanced liquidity and prospects of a strong post-pandemic economic recovery. Retail investors are one of the primary drivers for this growth in liquidity.

MACRO-ECONOMIC OVERVIEW

Indian economy has emerged strongly from a pandemic induced, technical recession witnessed in FY21. Industry and services, two key pillars of the economy witnessed steady recovery during the year under review. Growth-oriented policies of the central government, along with the accommodative stance of the Reserve Bank of India (RBI) helped this improvement. Reducing interest rates, all-encompassing stimulus measures and rapid vaccination were other key enablers for economic recovery. India's economy is expected to grow by 8.9% in FY22 as compared to a contraction of 6.6% in FY21.

According to the survey report of RBI, economic growth could moderate to 7.5% in FY23. However, India will still remain the fastest growing major economy in the world during 2021-24, going by the projections of the World Bank and the International Monetary Fund.

Gains from supply-side reforms, sustained export growth, and availability of budgetary space to ramp up capital spending will all contribute to growth in FY23. The year ahead looks promising for private sector investment, with the banking system in a strong position to help the economy recover.

On the flip side, persistent supply-side bottlenecks, steadily rising international crude oil prices, increasing raw material costs and rising inflation could pose challenges for economic growth. Emergence of any new variant/s of coronavirus and the ongoing geopolitical crisis owing to the Russia-Ukraine war must be monitored closely. In this scenario, it is anticipated that the RBI will start hiking rates soon.

OPPORTUNITIES

- The need for superior quality and process execution.
- Increasing disposable income and investment in financial products.

- Acceptance of a new and innovative range of financial products creates an opportunity to innovate in the financial services space.
- Rise in urban youth awareness about the benefits of investment.
- Need for leadership in sophisticated solutions to enable our clients to optimize the efficiency of their businesses.
- Constant upgradation of the technology enables us to emerge as a leader in this fast-paced financial services environment.
- Consolidation/acquisitions/restructuring opens out opportunities for the corporate advisory business.

THREATS:

- Enhanced competition from both local and global players and the rise of disruptive business models in financial services and the emergence of new technology, the company runs the risk of obsolescence.
- A dependence on technology and third-party platforms exposes us to threats posed on the internet such as virus attacks leading to execution failures and disclosure of client information.
- Our business operations have a heavy reliance on technology and servers to execute trades on the exchanges. This may lead to a threat due to execution risk.
- Our business is exposed to macroeconomic changes and operates in a highly regulated industry. Its performance not only depends on a slowdown in global liquidity flows but also on change in regulatory frameworks

BUSINESS PERFORMANCE:**1) REVIEW OF OPERATIONS:**

The Total Income of the Company stood at ₹ 4670.88 lacs for the year ended March 31, 2023 as against ₹ 7330.58 lacs in the previous year. The Company made a net profit of Rs 148.78 lacs for the year ended March 31, 2023 as compared to the net profit of ₹ 32.47 lacs in the previous year.

2) INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The company has an Internal Control System commensurate with its requirement and size of business to ensure that the assets and interest of the company assets are safeguarded. The adequacy and effectiveness of the internal control across various activities, as well as compliance with laid down system and policies are comprehensively and frequently monitored by your company's management at all the levels of the organization. The company has established well defined policies and processes across the organization covering all major activities including authority for approvals. In all cases where monetary decisions are involved, various limits and authorities are in place.

The Company's internal controls are structured in a manner that ensure reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable statutes, safeguarding assets from unauthorized use or losses, executing transactions with proper authorization and ensuring compliance of corporate policies, laws and accounting standards.

With a strong monitoring system in place, the Company has an Audit Committee, the details of which have been provided in the Corporate Governance Report. The Audit Committee of the Board of Directors review the existing audit procedures and internal systems of control on an ongoing basis keeping in mind the organization's requirements, growth prospects and ever evolving business environment. They also review the internal audit findings and recommendations and ensure that corrective measures are implemented. Suggestions for improvement are considered and the Audit Committee follows up on the implementation of corrective actions

3) RISKS AND CONCERN:

Risk is an integral part of the business and we aim at delivering superior shareholder value by achieving an appropriate balance between risks and returns. The financial services industry is subject to continuously evolving legislative and regulatory environment due to increasing globalization, integration of world markets, newer and more complex products & transactions and an increasingly stringent regulatory framework.

Our senior management identifies and monitors the risks on an ongoing basis and evolves processes/systems to monitor and control the same to contain the risks to minimum levels. Periodic monitoring by our officials helps in identifying risks in early stage. If required, a risk event update report is periodically placed before the Board of Directors of the Company.

Regulatory framework, focused on maintaining controls on domestic businesses but even inadvertently creating more favorable regulatory environment for global entities operating in India is a matter of concern. We actively participate in dialogue in industry bodies and with regulators to point these out and to recommend appropriate changes.

4) RISK MANGEMENT:

For Aryaman Capital Market Limited, an effective risk management policy lies at the core of our business philosophy, which is centered on delivering higher and better returns to all our stakeholders. With ups and downs, volatility and fluctuations in the financial business in which the Company operates, Aryaman Capital Market Limited is exposed to various risk5s and uncertainties in the normal course of our business. Since such variations can cause deviations in the results from operations and affect our financial state, the focus on risk management continues to be high.

Aryaman Capital Market Limited, risk management strategy has product neutrality, speed of trade execution, reliability of access and delivery of service at its core. Multiple products and diverse revenue streams enable the Company to ensure continued offering of customized solutions to suit client needs at all times – good and bad.

State-of-the-art technology, experienced professionals, a highly qualified IT team for in-house software development, coupled with adequate back-up systems and compliance with regulatory norms insulate Aryaman Capital Market Limited from the vagaries of the financial business. The Number of Employees are Five (5).

Independent Auditor's Report

To
The members of
ARYAMAN CAPITAL MARKETS LIMITED

Report on the Audit of Financial Statements

Opinion

We have audited the accompanying financial statements of **ARYAMAN CAPITAL MARKETS LIMITED** (“the Company”), which comprise the balance sheet as at 31st March 2023, the statement of profit and loss (including other comprehensive income), statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31st March, 2023, and the **net profit** (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the ‘Auditor’s Responsibilities for the Audit of the Financial Statements’ section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidences we have obtained are sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in

Information other than the financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statement does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's board of directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, change in equity and cash flows of the Company in accordance with the applicable

V.N. PUROHIT & CO.

Chartered Accountants

accounting standards and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that are operating effectively for insuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain a reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise due to fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (i) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- (ii) Obtain an understanding of the internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

V.N. PUROHIT & CO.

Chartered Accountants

- (iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained upto the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- (v) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statement, individually or in aggregate, makes it probable that the economic decision of reasonable knowledgeable user of the financial statement may be influenced.

We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work; and, (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonable be thought to bear on our independence, and where applicable, relevant safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, or when in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonable be expected to outweigh the public interest benefits of such communication.

ANNEXURE -B TO THE AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub- section (3) of Section 143 of the Companies Act, 2013

In conjunction with our audit of the financial statements of the Company as at and for the year ended 31st March 2023, we have audited the internal financial controls with reference to financial statements of **ARYAMAN CAPITAL MARKETS LIMITED** (hereinafter referred to as "Company") along with its subsidiaries, as of that date.

Opinion

In our opinion, the Company has, in all material aspects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2023, based on "the internal financial controls with reference to financial statements criteria considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India".

Management's Responsibility for the Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of fraud and errors, the accuracy and completeness of accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the Guidance Note) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with

V.N. PUROHIT & CO.

Chartered Accountants

reference to financial statements was established and maintained and if such controls operated effectively in all material aspects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidences we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that: -

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and the receipt and expenditures of the Company are being only in accordance with authorizations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and could not be detected. Also, projections of any evaluation of the internal financial control with reference to financial statements to future periods are subject to the risk that the

V.N. PUROHIT & CO.
Chartered Accountants

internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Note 1

A. **CORPORATE INFORMATION:**

Aryman Capital Markets Limited is a public limited company domiciled in India with its registered office located at 60, Khatau Building, Ground Floor, Alkesh Dinesh Modi Marg, Fort, Mumbai - 400 001. The Company is listed on SME Platform of BSE Limited (BSE SME). The Company is engaged in the business of market making of SME Scips listed on BSE & NSE.

B. **SIGNIFICANT ACCOUNTING POLICIES**

1. **Basis of Preparation of Financial Statements:**

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('the Act') read with the Division III of schedule III of Companies Act and Companies (Indian Accounting standards) Rules as amended from time to time and other related provisions of the Act.

The financial statements of the Company are prepared on the accrual basis of accounting and Historical cost convention except for the following material items that have been measured at fair value as required by the relevant Ind AS:

- (i) Certain financial assets and liabilities are measured at Fair value (Refer note no. 7 below)

The accounting policies are applied consistently to all the periods presented in the financial statements. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

The financial statements are presented in INR, the functional currency of the Company. Rounding of amounts All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Every Non-Banking Financial company as defined in the Companies (Indian Accounting Standards) (Amendment) Rules, 2016 to which Indian Accounting Standards apply, shall prepare its financial statements in accordance with this Schedule III (Division III) or with such modification as may be required under certain circumstances and we have complied with the same.

2. **Use of Estimates and judgments:**

The preparation of the financial statements requires the Management to make, judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates. The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the management and are based on historical experience and various other assumptions and factors (including expectations of future events) that the management believes to be reasonable under the existing circumstances. Actual results may differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Critical accounting judgements and key source of estimation uncertainty

The Company is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. The estimates and underlying assumptions are reviewed on an on-going basis.

- (a) Estimation of current tax expenses and payable - Refer note no. - 14 below

3. **Property, plant and equipment (PPE)**

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the asset to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

4. **Intangible assets**

Intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

5. **Depreciation and Amortization:**

(a) Property plant and equipment (PPE)

Depreciation is provided on a pro-rata basis on the straight line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Estimated useful life is as below:

- Computer - 3 Years
- Furniture and fixtures - 10 years
- Office equipments - 5 years
- Vehicle - 8 Years
- Leasehold premises - 60 years

(b) Intangible assets

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives.

The amortisation period and the amortisation method for finite life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate. For indefinite life intangible assets, the assessment of indefinite life is reviewed annually to determine whether it continues, if not, it is impaired or changed prospectively basis revised estimates.

Estimated useful life is as below:

Software - 3 Years

6. Investment Properties:

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

Depreciation on building is provided based on straight line method using the useful life as specified in schedule II of the Companies Act, 2013 .

7. Financial Instruments:**Financial assets - Initial recognition:**

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments.

Equity Instruments:

Considering the entity's business model for managing equity instruments; the investments in equity shares have been recognised at fair value as on date of balance sheet. Fair value movements are recognised in the other comprehensive income (OCI).

Dividends on these investments in equity instruments are recognised in Statement of Profit and Loss when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in Statement of Profit and Loss are included in the 'Other income' line item.

Impairment

The Company recognises a loss allowance for Expected Credit Losses (ECL) on financial assets that are measured at amortised cost and at FVOCI. The credit loss is difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. This is assessed on an individual or collective basis after considering all reasonable and supportable including that which is forward looking.

The Company's trade receivables or contract revenue receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall, being simplified approach for recognition of impairment loss allowance.

Under simplified approach, the Company does not track changes in credit risk. Rather it recognizes impairment loss allowance based on the lifetime ECL at each reporting date right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For financial assets other than trade receivables, the Company recognises 12-months expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. If, in a subsequent period, credit quality of the instrument improves such that there is no longer significant increase in credit risks since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12 months ECL. The impairment losses and reversals are recognised in Statement of Profit and Loss. For equity instruments and financial assets measured at FVTPL, there is no requirement of impairment testing.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers rights to receive cash flows from an asset, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement.

In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Financial Liabilities

Initial Recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial liabilities

are initially recognised at fair value net of transaction costs for all financial liabilities not carried at fair value through profit or loss.

The Company's financial liabilities includes trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

Financial liabilities measured at amortised cost are subsequently measured at using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Loans & Borrowings:

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using EIR method. Gains and losses are recognized in profit & loss when the liabilities are derecognized as well as through EIR amortization process.

Financial Guarantee Contracts

Financial guarantee contracts issued by the Company are those contracts that requires a payment to be made or to reimburse the holder for a loss it incurs because the specified debtors fails to make payment when due in accordance with the term of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

8. Fair Value Measurement

The Company measures financial instruments, such as, derivatives, investments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

9 Inventories/ Securities held for trading

Inventories are valued at the lower of cost and net realisable value. Cost is computed on a weighted average basis. The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

10 Cash & Cash Equivalents

Cash and Cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value where original maturity is three months or less.

11

a) Initial Recognition

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

b) Measurement of Foreign Currency Items at the Balance Sheet Date

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these transactions are charged to the Statement of Profit and Loss.

12 Revenue Recognition:

Rendering of Services

Income from services rendered is recognised based on invoices raised for service provided on an accrual basis.

Revenue is measured at fair value of the consideration received or receivable, after deduction of any discounts and any taxes or duties collected on behalf of the government which are levied on sales such as Goods & Service tax, sales tax, value added tax, etc.

Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable and based on Effective interest rate method.

Dividend

Dividend Income is recognized when right to receive the same is established and shown as part of investment and dividend income

13. Employee Benefits:

Employee Benefits: - The Company does not fall within the applicability of Employee Benefit plans.

14. Taxes on Income:

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

Current tax is based on taxable profit for the year. Taxable profit is different from accounting profit due to temporary differences between accounting and tax treatments, and due to items that are never taxable or tax deductible. Tax provisions are included in current liabilities. Interest and penalties on tax liabilities are provided for in the tax charge. The Company offsets, the current tax assets and liabilities (on a year on year basis) where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis or to realise the assets and liabilities on net basis.

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements. Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax assets are not recognised where it is more likely than not that the assets will not be realised in the future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Minimum Alternative Tax ("MAT") credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income-tax during the specified period. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income-tax during the specified period.

15. Borrowing Cost:

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as a part of Cost of that assets, during the period till all the activities necessary to prepare the Qualifying assets for its intended use or sale are complete during the period of time that is required to complete and prepare the assets for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are recognized as an expense in the period in which they are incurred.

16. Earnings Per Share:

Basic earnings per shares are calculated by dividing the net profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to the equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

17. Leases:**Where the Company is Lessee**

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on accrual basis as per the terms of agreements entered with the counter parties.

Where the Company is Lessor

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in property, plant and equipment. The Company recognizes lease rentals from the property leased out, on accrual basis as per the terms of agreements entered with the counter parties. Costs, including depreciation, are recognized as an expense in the Statement of Profit and Loss.

18. Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognised if, as a result of a past event, the group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognized nor disclosed in financial statements.

28 Financial instruments

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The carrying amounts and fair values of financial instruments by category are as follows:

Fair value estimation

For financial instruments measured at fair value in the Balance Sheet, a three level fair value hierarchy is used that reflects the significance of inputs used in the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

- Level 1: quoted prices for identical instruments
- Level 2: directly or indirectly observable market inputs, other than Level 1 inputs; and
- Level 3: inputs which are not based on observable market data.

For assets and liabilities which are carried at fair value, the classification of fair value calculations by category is summarised below:

March 31, 2023

Particular	Level 1	Level 2	Level 3
	INR Lacs	INR Lacs	INR Lacs
Assets at fair value - Investments	1,848.39	-	-

March 31, 2022

Particular	Level 1	Level 2	Level 3
	INR Lacs	INR Lacs	INR Lacs
Assets at fair value - Investments	644.62	-	-

There were no significant changes in classification and no significant movements between the fair value hierarchy classifications of financial assets and financial liabilities during the period.

29 Financial risk factors

The Company's principal financial liabilities comprise loans and borrowings, advances and trade and other payables. The purpose of these financial liabilities is to finance the Company's operations and to provide to support its operations. The Company's principal financial assets includes investments (Strategic and Non Strategic), loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company's activities exposes it to Liquidity Risk, Market Risk and Credit risk. The Board of Directors review and agree policies for managing each of these risks, which are summarised as below.

(a) Liquidity risk

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk management implies maintenance sufficient cash including availability of funding through an adequate amount of committed credit facilities to meet the obligations as and when due.

The Company manages its liquidity risk by ensuring as far as possible that it will have sufficient liquidity to meet its short term and long term liabilities as and when due. Anticipated future cash flows are expected to be sufficient to meet the liquidity requirements of the Company. The Company does not have any undrawn borrowing facilities with the Banks / Financial institutions.

(b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk includes investment, deposits, foreign currency receivables and payables. The Company's treasury team manages the Market risk, which evaluates and exercises independent control over the entire process of market risk management.

(i) Foreign currency risk

Foreign currency risk can only arise on financial instruments that are denominated in a currency other than the functional currency in which they are measured. The Company's functional and presentation currency is INR. The Company does not have any foreign currency transactions and hence is not exposed to the Foreign Currency Risks.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The Company's does not have any long term borrowings. Hence, the Company is not exposed to the interest rate risk.

(iii) Price Risk

The Company's exposure to equity securities price risk arises from investments held by the Company and classified in the balance sheet either at fair value through OCI or at fair value through profit and loss. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

This include compulsion to provide two way quotes to a clients on a Stock exchange. The Company manages this risk by underwriting issues only after strong research conducted by it.

(c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter-party fails to meet its contractual obligations. The Company is exposed to credit risks from its innng activities, primarily trade receivables, cash and cash equivalentents, deposits with banks and other financial instruments.

The Company is not significantly exposed to the credit risk toward trade receivables considering the nature of serivces provided by the Company.

(ii) Trade and other receivables

The Company considers the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risks on an ongoing basis throughout each reporting period.

To assess whether there is a significant increase in credit risk, the Company compares the risks of default occurring on the assets as at the reporting date with the risk of default as at the date of initial recognition. It considers the reasonable and supportive forward looking information such as:

- Actual or expected significant adverse changes in business.
- Actual or expected significant changes in the operating results of the counterparty.
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations
- Significant increase in credit risk on other financial instruments of same counterparty

ARYAMAN CAPITAL MARKETS LIMITED
Notes to financial statements for the year ended 31st March, 2023

31 (a) Financial risk factors

Capital risk management

The Company's objectives when managing capital are to :

- (i) safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
(ii) maintain an optimal capital structure to reduce the cost of capital

In order to maintain or adjust the capital structure, the Company may issue new shares, adjust the amount of dividends paid to shareholders etc. The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business.

The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

32 Ind AS 116 - Leases:

On March 30, 2019, Ministry of Corporate affairs have notified Ind AS 116 – "Leases". Ind AS 116 will replace the existing leases standards Ind AS 17 – "Leases" and related interpretations. The new standard sets out the principles for the recognition, measurement, presentation and disclosures of lease for both lease and lessor. Ind AS 116 introduces a single lease accounting model and requires a lessee to recognise the assets and liabilities for all leases with a term of more than 12 months, unless the underlying assets are of low value. Ind AS 116 substantially carried forward the accounting treatment prescribed for lessor. The effective date for adoption of Ind AS 116 is annual period beginning on or after April 01, 2019. The Company is evaluating the impact of the issued Ind AS 116 on its financial statements.

33 Ind AS 12 – "Income taxes" - Appendix C – Uncertainty over income tax treatments :

On March 30, 2019, Ministry of Corporate affairs have notified Appendix C to Ind AS 12, uncertainty over the income tax treatments which is to be applied while performing the determination of taxable profits/(loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, the company needs to determine the probability of the relevant tax authorities accepting each tax treatment that the company has used or plans to use in their income tax filings which has to be considered to compute the most likely amount or expected value of the tax treatments, when determining the taxable profits/(loss), tax bases, unused tax losses, unused tax credits and tax rates.

34 The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property.

35 The Company does not have any charges or satisfaction which is yet to be registered with ROC beyond the statutory period.

36 The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

37 The Company has not any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961).

38 The company does not have transactions with the companies struck off under section 248 of Companies Act ,2013.

39 There is no litigation by/against the Company.
