Any developments in the proceedings, such as a change in Indian law or rulings against our Group Companies and our Subsidiaries by appellate courts or tribunals may constrain us to make provisions in our financial statements that could increase our expenses and current liabilities and the same may result in an adverse material impact on our business, goodwill, results of operations and financial condition. For further details, please refer to the chapter titled “*Outstanding Litigations and Material Developments*” beginning on page 162 of this Draft Prospectus.

- 2. We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations, and the failure to obtain or retain them in a timely manner or at all may adversely affect our operations.***

We require several statutory and regulatory permits, licenses and approvals to operate our business, some of which our Company has either received, applied for or is in the process of application. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company’s operations, thereby having a material adverse effect on our business, results of operations and financial condition.

As on date of this Draft Prospectus the Company has filed applications for the following approvals: (i) Application filed for registration of Establishments Employing Contract Labour before the office of the Assistant Commissioner of Labour, Palghar-2, in respect of the Company’s premises located at Plot No. A-13, MIDC, Tarapur, District-Thane; and (ii) Application filed before MIDC for No Objection Certificate from the concerned Fire Officer in accordance with the provisions of the Maharashtra Fire Prevention and Life Safety Measures Act, 2006, in respect of the Company’s premises located at Plot No. N-83/84, MIDC, KumbhaVali Naka, Tarapur, Boisar District, Palghar, Maharashtra.

Further, the Company is the process of filing applications for the following approvals: (i) Application filed for registration of Establishments Employing Contract Labour before the office of the Assistant Commissioner of Labour, Palghar-2, in respect of the Company’s premises located at Plot No. 13/1, MIDC Industrial Area Saravali, Kalyan Dist. Thane, Maharashtra-421302. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all.

Our Company requires the following statutory and regulatory registrations, licenses, permits and approvals for our business but the same have not been obtained by us, as on date of this Draft Prospectus: (i) Approvals or permissions from MIDC for occupying the factory premises located at Plot No. 13/1, MIDC Industrial Area Saravali, Kalyan Dist. Thane, Maharashtra-421302; and (ii) No Objection Certificate from the concerned Fire Officer in accordance with the provisions of the Maharashtra Fire Prevention and Life Safety Measures Act, 2006, in respect of the Company’s premises located at Plot No. 13/1, MIDC Industrial Area Saravali, Kalyan Dist. Thane, Maharashtra-421302. We may be penalized for non-compliance with the aforementioned laws for which we have not obtained the requisite Licenses.

Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of the relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change, we may incur increased costs, be subject to penalties or suffer a disruption in our business activities, any of which could adversely affect our results of operations. For further details, please see chapters

titled “Key Industry Regulations and Policies” and “Government and Other Statutory Approvals” at pages 86 and 168 respectively of this Draft Prospectus.

**3. *Volatility in the prices of raw materials, fabrics, colours & chemicals and other raw materials and non-availability of such raw materials, may adversely impact our total cost of goods sold and our operations.***

Our Company purchases raw materials from various suppliers for our processing operations. Also, processing requires colours and chemicals which are used for dyeing. We do not have any agreement with suppliers with respect to supply of raw materials purchased by us from them. We are therefore, entirely dependent on external suppliers for the raw materials which constitutes a majority of the total cost of raw materials for our processing operations. Any adverse fluctuations in the price of the raw materials, which we may not be able to pass on to our customers could have a material adverse effect on our total cost of production. Further, in the event of any disruption in raw material supply in terms of requisite quantities and qualities, our production schedule may also be adversely affected having an impact on our business operations.

**4. *Our Company does not have any agreement with the third party service providers to whom we outsource some processes like printing, weaving and other allied work; consequently we are exposed to supply fluctuations for the same, ultimately which may have an adverse impact on our business and results of operations.***

Our Company relies to some extent on local third parties for outsourcing some of the processes like printing, weaving and other related work on yarn, grey fabric and finished fabric, as and when required. Our Company has such arrangement for outsourcing the work to third party service providers, wherein the Company has not entered into any agreement with them. To the extent works are outsourced, we are dependent on third party service providers and any delay/ failure on their part may adversely affect our operations and turnaround time/ delivery schedule. Further, any failure on our part to ensure quality from such service providers may adversely affect our reputation and business.

Further, we cannot assure you that our third party service providers will continue to be associated with us on reasonable terms, or at all. Since such third party service providers are not contractually bound to deal with us exclusively, we may face the risk of our competitors offering better terms to such third party service providers, which may cause them to cater to our competitors alongside, or even instead of us. In case of we are unable to outsource certain allied activities like printing, weaving etc., we may have to get this work done at the terms and conditions prevalent at that point, and consequently which may have an impact on our business, financial condition and results of operation.

**5. *We are dependent on third party transportation providers for the delivery of raw materials and products. Accordingly, continuing increase in transportation costs or unavailability of transportation services for our products, as well the extent and reliability of Indian infrastructure may have an adverse effect on our business, financial condition, results of operations and prospects***

We use third party transportation providers for the supply of most of our raw materials and for delivery of our products to our customers. We procure raw materials from our vendors from Maharashtra and Gujarat and also import certain plant and machinery. Also, our finished products are sold and delivered to different location within the country and also exported to a few countries. Most of these raw material and finished products are transported to and from our processing units by third party transportation service providers. Transportation strikes could have an adverse effect on our receipt of goods, raw materials and our ability to deliver our products to our customers.

Non-availability of ships, trucks and flights could adversely affect delivery of our products. In addition, transportation costs in India have been steadily increasing over the past several years. While usually the end consumer bears the freight cost, we may not always be able to pass on these costs to our customers. Continuing increases in transportation costs or unavailability of transportation services for our products may have an adverse effect on our business, financial condition, results of operations and prospects. In addition, India’s physical infrastructure is less developed than that of many developed nations, and problems with its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our normal business activity, including our supply of raw materials and the delivery of our products to customers by third-party transportation providers. Any deterioration of India’s physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our business operations, which could have a material adverse effect on our results of operations and financial condition.

6. ***Our Company's manufacturing activities are labour intensive and depend on availability of skilled and unskilled labourers in large numbers. In case of unavailability of such labourers and / or inability to retain such personnel, our business operations could be affected.***

Our Company has employed 319 employees as on March 31, 2018, which consists of employees all of whom are on payroll. The above includes employees in the Top and middle management (excluding Executive Directors), and also employees who are part of processing unit and office staff. Our operations and performance are labour intensive and depends on our ability to identify, attract and retain both skilled and unskilled labour. In case such labour is unavailable or we are unable to identify and retain such labourers for our existing units, our business could be adversely affected. Additionally we have entered into an arrangement with certain Independent contractors for execution, fulfilment and discharge of work and obligations as provided to the Contractor and that the Contractor shall execute and efficiently handle the work as per our requirements. We have not entered into any agreement for hiring additional labourers and thus availability of appropriately skilled labour cannot be guaranteed. Any failure to hire the appropriate labour may impact the operations and impair our client relations.

7. ***We face competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.***

The State of Maharashtra and especially Bhiwandi is a hub for the Textile Industry and this has resulted in huge competitive pressures. We may have to confront pressures in respect of pricing; product quality etc. from the clients and such pressures may put strain on our profit margins which may consequently affect the financial position of our Company. Competition emerges not only from the organized sector but also from the unorganized sector and from both small and big players. We are also in direct competition with the leading processing house in India as well as the local units. Our Competitiveness is also measured by the technology we adopt as the textile industry is rapidly growing in India and in International Markets. Some of our clients might export their final products which in turn compel us to meet international standards also. Our inability to compete with this intense competition; local, national and international will have material adverse impact on our Company's financial position.

8. ***Our Company has reported certain negative cash flows from its operating, investing and financing activities, details of which are given below. Sustained negative cash flow could impact our growth and business in the future.***

Our Company had reported certain negative cash flows from its operating, investing and financing activities in the previous years as per the restated financial statements and the same are summarized as under:

(₹ in lakhs)

Particulars	For period ending December 31, 2017	For the year ended March 31,				
		2017	2016	2015	2014	2013
Cash flow from Operating Activities	574.46	208.49	956.81	800.77	555.78	677.59
Cash flow from Investing Activities	(524.75)	(634.69)	(795.10)	(119.17)	(155.89)	(397.46)
Cash flow from Financing Activities	(33.03)	214.96	(131.73)	(662.70)	(220.03)	(278.55)

For details, please refer “*Management’s Discussion and Analysis of Financial Conditions and Results of Operations of our Company*” on page no. 149 of this Draft Prospectus.

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If our Company is not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

**9. Contingent liabilities could adversely affect our financial condition. Crystallization of any of these contingent liabilities may adversely affect our financial condition.**

As of December 31, 2017, our contingent liabilities as indicated in our Restated Financial Statements and also certified by our statutory auditors were as follows:

(₹ in lakhs)

Particulars	As at December 31, 2017	As at March 31,				
		2017	2016	2015	2014	2013
Disputed income tax demand	92.03	43.78	43.78	43.18	43.18	43.18
Bank guarantee	88.92	68.92	78.92	78.92	29.66	29.66
Corporate guarantee	-	-	300.00	300.00	-	-
<b>Total</b>	<b>180.95</b>	<b>112.70</b>	<b>422.70</b>	<b>422.10</b>	<b>72.84</b>	<b>72.84</b>

Any default in payment under such arrangement may have an adverse effect and may result into difficulty in arranging of funds for re-payment and may also adversely affect our operations and financials.

In the event that any of our contingent liabilities materialize, our business, financial condition and results of operations may be adversely affected. Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the current fiscal year or in the future. For further information, please refer “Annexure XXX – Schedule of Contingent Liabilities, As Restated” under Restated Financial Statement Report starting on page no. 124 of this Draft Prospectus.

**10. The implementation of the project of M/s. Jakharia Industries into which the proposed Issue proceeds are to be invested is under progress and the partnership firm has not placed order for plant and machinery yet.**

M/s Jakharia Industries has not placed orders for machineries and equipments as mentioned above. The civil works at the proposed processing unit is under progress. Any delay in placing the orders for machinery/ or supply of plant and machinery or completion of civil work may result in time and cost overruns, and may affect our profitability.

Since the part funding for the plant and machinery is from the IPO proceeds, any delay in access to IPO proceeds would eventually delay the process of placing the orders for certain machineries. The purchase of plant and machinery would require us to consider factors including but not limited to pricing, delivery schedule and after-sales maintenance. Our Company is further subject to risks on account of inflation in the price of plant and machinery. There may also be a possibility of delay at the suppliers’ end in providing timely delivery of these machineries, which in turn may delay the implementation of our project. For further details, please refer to the chapter titled ‘Objects of the Issue’ beginning on page no. 56 of this Draft Prospectus.

**11. Our Company has incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations.**

As on December 31, 2017, our company had ₹ 1085.16 lakhs of outstanding debt consisting of secured loans as on our balance sheet (including current maturities) in relation to various facilities from the bank(s). In the event that we fail to meet our debt servicing obligations under our financing documents, the relevant lender(s) could declare us to be in default, accelerate the maturity of our obligations or even sell our Company’s movable and immovable assets. We cannot assure investors that in the event of any such acceleration we will have sufficient resources to repay these borrowings. Failure to meet obligations under debt financing agreements may have an adverse effect on our cash flows, business and results of operations. Our ability to meet our debt service obligations and to repay our outstanding borrowings will depend primarily upon the cash flows generated by our business. We cannot assure you that we will generate sufficient cash to enable us to service existing or proposed borrowings. Incurring significant indebtedness may limit our flexibility in planning for or reacting to changes in our business & industry and limit our ability to borrow additional funds. Further, our level of indebtedness has important consequences to our Company, such as:

- Increasing our vulnerability to general adverse economic, industry and competitive conditions;
- Limiting our flexibility in planning for, or reacting to, changes in our business and the industry; affecting our credit rating;
- Limiting our ability to borrow more money both now and in the future; and
- Increasing our interest expenditure and adversely affecting our profitability, since almost all of our debt bears interest at floating rates.

If any of these risks were to materialise, our business and results of operations may be adversely affected.

**12. *Our Company has entered into certain related party transactions in the past and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.***

Our Company has entered into certain transactions with our related parties including our Promoters, Promoter Group, Directors and their relatives and our Group Entities. While we believe that all such transactions have been conducted on the arm's length basis, we cannot assure you that we might have obtained more favourable terms had such transactions been entered into with unrelated parties.

Furthermore, it is likely that we may enter into related party transactions in the future. We cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, results of operations, cash flows and financial condition. For details, please refer "*Annexure XXVIII – Related Party Transactions under Financial Statements*" beginning on page no. 124 of this Draft Prospectus.

**13. *Some of the premises used by our Company including our Registered Office and Processing units are not owned by our Company.***

The premises used by our Company as its Registered Office is taken on leave and license basis from our Director(s). The processing house located in MIDC Area of Saravali is taken on leave and license basis. There can be no assurance that these agreements will be renewed upon expiry or on terms and conditions acceptable to us. The processing house located in MIDC Area of Tarapur is taken on the basis of long term lease agreements for 95 years. The said plot is taken on long-term lease from M.I.D.C. As on date of this Draft Prospectus there are no litigations or disputes on our occupancy of such lands with M.I.D.C. However, any defaults in complying with the said terms and conditions/covenants on our part may be subjected to penal provisions and it may also lead to the cancellation of such lease, which will adversely affect our business, financial conditions and results of operations.

Further, any failure to renew these agreements or procure new premises will increase our costs or may force us to look out for alternative premises which may not be available or which may be available at more expensive prices. Any or all of these factors may have a material adverse effect upon our business, results of operations and financial condition. For further details please refer to the chapters titled "*Our Business*" beginning on page no. 74 of this Draft Prospectus respectively.

**14. *There may be potential conflict of interests between our company and other venture or entities/ enterprises promoted by our promoters or directors.***

We are heavily dependent on our executive directors and their expertise for our strategic as well as day to day operations. The Chairman and Executive Director of our Company, Mr. Jignesh Shah is involved in the management of our Group Company also and he is also a common director between our Company and our Group company viz: Jakharia Synthetic Private Limited which is involved in a similar line of business. However, Jakharia Synthetics Pvt. Ltd. is engaged in the business of processing and job work in relation to yarn and other fabrics. Further Mr. Jignesh Shah, Mr. Nitin Shah and Mr. Manekchand are partners in M/s. Dixit Processors which is involved in a similar line of business. Our Company has invested in M/s. Jakharia Industries to the extent of 85 %. The operational activities of the Partnership firm have not yet commenced. However, the business of the Partnership firm is in the similar business line of ours, with higher level of automisation. The promoters have explained to us that over time they propose to ensure there are no conflicts of interest within these companies however there is no legal "non-compete" agreement or such methodology executed as on date and hence we face these conflict of interest.

In case of a conflict between us and or any other entity in which our Directors or our Promoter Group members are interested, our Promoters/ Directors may favor such other companies over us. Further, there may be situations in which they are unable to allocate sufficient time to our Company or effectively participate in the management of our Company, which could have a material adverse effect on our business. If any such actual or perceived conflicts of interests are not resolved suitably, our business, results of operations and/or the interest of our other shareholders may be adversely affected. For further details, please see "*Our Management*" and "*Our Promoters and Promoter Group*" and "*Annexure XXVIII-Related Party Transactions*" under the chapter titled "*Financial Statements*" beginning on page nos. 99 115, and 124 respectively of this Draft Prospectus.

**15. *Our Company generally does business with our customers on purchase order basis and we have not entered into long term contracts with any of them.***

Our business is dependent on our continuing relationships with our customers. Our Company neither has any long-term contract with any of customers or distributors. Any change in the buying pattern of our customers or distributors from us can adversely affect the business of our Company. Further, our inability to add new buyers to our sales portfolio may hamper growth of our business and profitability. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

**16. *Our Company is in use and occupation of the premises on land bearing Plot No. 13/1, MIDC Industrial Area Saravali, Kalyan District: Thane taken on lease and license basis from Bhalotia Bleaching and Dyeing Private Limited which is taken on lease basis by Bhalotia Bleaching and Dyeing Private Limited from MIDC. However, no approvals or permissions of MIDC have been obtained for such use and occupation of the said land by the Company.***

The land bearing Plot No. 13/1, MIDC Industrial Area Saravali, Kalyan District: Thane (the “said Land”) has been taken on lease basis by Bhalotia Bleaching and Dyeing Private Limited from MIDC. The lease deed executed in this regard mandates that any sub-letting of the said Land by Bhalotia Bleaching and Dyeing Private Limited would require prior permission of MIDC. Conversely, the use and occupation of the said Land has been licensed to the Company by Bhalotia Bleaching and Dyeing Private Limited under a Conducting Agreement dated December 12, 2017. However, no permission or approval has been obtained from MIDC either by the Company or Bhalotia Bleaching and Dyeing Private Limited in this regard, although possession for use of the said Land has already been granted to the Company pursuant to the Conducting Agreement dated December 12, 2017 and the Company’s manufacturing unit on the said Land is operative. Till date of this Draft Prospectus, neither Bhalotia Bleaching and Dyeing Private Limited nor the Company has received any default notice or communication raising any sort of objection from MIDC pertaining to the said Land. However, it cannot be assured that there will be no objection raised by MIDC in future. Further, in the event, either Bhalotia Bleaching and Dyeing Private Limited or the Company receive any default notice from MIDC, either of them may be required to pay the penalty demanded or even vacate the said Land or the ex facto permission for use and occupation of the said Land may be denied by MIDC, in which case there may be a shutdown of our manufacturing facility at Saravali, MIDC which may have an adverse effect on our business, results of operations and financial condition.

**17. *Substantial portion of our revenues has been dependent upon our few clients. The loss of any one or more of our major clients would have a material effect on our business operations and profitability.***

A significant majority of our income from operations is from job work services and rest of the income is derived from sale of finished goods. For the financial year ended March 31, 2017 and for nine months period ended December 31, 2017, our top ten clients accounted for approximately 45.85 % and 52.47 % respectively of our revenue from operations. The loss of any significant client would have a material effect on our financial results. We cannot assure you that we can maintain the historical levels of business from these clients or that we will be able to replace these clients in case we lose any of them. Demand for our products and services is based on customer’s requirements and further, with the advancement of technology in the market, it may render our current technologies obsolete to fulfil their requirements. This may result in our customers opting for other processors. Any loss of customer base, out of our existing customers, will impact our overall sales, resulting in decline in our revenues.

While we are constantly striving to increase our customer base and reduce dependence on any particular customer, there is no assurance that we will be able to broaden our customer base in any future periods or that our business or results of operations will not be adversely affected by a reduction in demand or cessation of our relationship with any of our major customers.

**18. *We have not entered into any technical support service contract for the maintenance and smooth functioning of our equipment’s and machineries, which may affect our performance.***

Our processing operations involve daily use of various machineries and technical equipments. They require periodic maintenance checks and technical support in an event of technical breakdown or malfunctioning. Our company has not entered into any technical support service contract with any competent third party.

However, we conduct in-house machinery maintenance periodically in order to ensure the quality of the machinery used in the process and further avoid any mishaps. The machines are cleaned on periodic basis to ensure quality of the processing of the cloth. Further, we also maintain certain spare parts of the machines in case of breakdown of the machines. Despite of the above maintenance, in case of any future event which leads to breakdown of the machinery and our failure to reduce the downtime in case of occurrence of such events, may adversely affect our productivity, business and results of operations.

**19. *Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.***

We may encounter problems in executing the orders in relation to our products and services, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions, may result in the postponement of the delivery of products or cause its cancellation. Further, since we do not execute contracts with our customers, the order could be cancelled or there could be changes in scope and/ or scheduled delivery of the products. Accordingly, it is difficult to predict with certainty if, when, and to what extent we may be able to deliver the orders placed. Failure to deliver products on time could lead to customers delaying or refusing to pay the amount, in part or full, which may adversely affect our business. In addition, even where a delivery proceeds as scheduled, it is possible that the contracting parties may default or otherwise fail to pay amounts owed. While we have not yet experienced any material delay, reduction in scope, cancellation, execution difficulty, delay or default in payment with regard to the orders placed with us, or any material disputes with customers in respect of any of the foregoing, any such adverse event in the future could materially harm our cash flow position and income. Any delay, modification, cancellation of order by our large customers may have material adverse effect on our financial condition and results of operations.

**20. *Our Company had availed an amount of ₹ 1,168.07 lakhs as unsecured loans from Directors/ Promoters, Promoter Group, and Group Entities which are repayable on demand. Any demand from the lenders for repayment of such unsecured loan may affect our cash flow and financial condition. Also, such unsecured loans may be recalled at any time which may have an adverse effect on our business, prospects, financial condition and results of operations.***

Our Company had availed an amount of ₹ 1,168.07 lakhs as unsecured loan from Directors/ Promoters, Promoter Group and Group Entities which may be recalled at any time. Sudden recall for the repayment may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden.

Further, our Company will not be able to raise funds at short notice and thus result in shortage of working capital funds. For further details, please refer to the section “Unsecured Loans” under “Restated Financial Statements” beginning on page no. 124 of this Draft Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

Our Company may obtain in future, unsecured loans from Directors/ Promoters, Promoter Group and Group Companies, some of which may be recalled at any time at the option of the lender. If the unsecured loans so obtained by our Company are recalled at any time, the financial condition of our Company may be adversely affected having an effect on our business, prospects and results of operations also.

**21. *Certain statutory/ regulatory approvals for the proposed project needs to be applied and any delay or non-receipt of such approvals may delay the proposed project of M/s Jakharía Industries.***

Based on the objects of the Part financing for setting up of processing unit through M/s Jakharía Industries at Tarapur, MIDC, M/s Jakharía Industries will have to apply for certain statutory/ regulatory approval in relation to the Objects of the Issue. We cannot assure that M/s Jakharía Industries would be able to apply for these licenses/ approvals/ permissions in a timely manner, or that they would be granted such licenses/ approvals/ permissions in a timely manner or at all. Such grant may also be subject to restrictions and/ or permissions which may prejudicially affect the project implementation of M/s. Jakharía Industries thereby affecting its operations, which in turn would have an adverse effect on our return on Investment in Jakharía Industries.

**22. *Our insurance coverage may not adequately protect us against all material hazards and the policies do not cover all risks, specifically risks like product defect / liability risk, loss of profits and workmen’s compensation, In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.***

Our business, processing units, plant and machinery and other assets could suffer damage from fire, natural calamities, misappropriation or other causes, resulting in losses, which may not be fully compensated by insurance. There can be no assurance that the terms of our insurance policies will be adequate to cover any damage or loss suffered by our Company or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim.

While we believe that we maintain insurance coverage in amounts consistent with industry norms in each of our processing unit, our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits and workmen's compensation, and are subject to exclusions and deductibles. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance had been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected. For details on the insurance policies taken by our Company, please refer to the chapter titled "*Our Business*" beginning on page no. 74 of this Draft Prospectus.

- 23. *Our funding requirements and deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution. Any variation in the utilization of our Net Proceeds as disclosed in this Draft Prospectus would be subject to certain compliance requirements, including prior shareholders' approval.***

The deployment of the funds towards the objects of the Issue is entirely at the discretion of the Board and our Board will monitor the utilisation of Net Proceeds through its Audit Committee. Further, our Promoter or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to change the objects of the Issue, at a price and manner as specified in Chapter VI-A of the SEBI ICDR Regulations pursuant to the SEBI ICDR (Second Amendment) Regulations, 2016 dated February 17, 2016. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilisation of our Net Proceeds, even if such variation is in our interest. Further, we cannot assure you that our Promoter or the controlling shareholders will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price which may be prescribed by SEBI.

Our Company will disclose the utilisation of the Net Proceeds under a separate head along with details in its balance sheet until the Net Proceeds remain unutilised, clearly specifying the purpose for which the Net Proceeds have been utilised. Any inability on our part to effectively utilize the Offer proceeds could adversely affect our operational and financial performance.

- 24. *The Company has outstanding debtors for a period of more than six months. Inability to recover the same may impact our cash flows and financial condition.***

As on March 31, 2017 and December 31, 2017, our Company had ₹ 209.69 lakhs and ₹ 80.13 lakhs of debtors respectively, outstanding for more than six months. This amount corresponds to 12.19 % and 5.10 % of the total debtors outstanding as on March 31, 2017 and December 31, 2017. If we are unable to recover the said amount from our debtors, we have to write-off the same amount as a bad debt resulting in a cash flow shortage and consequently affecting our financial condition. Further, we cannot guarantee that there will be lower or no debtors outstanding for more than six months in the future and that we will be able to recover the amount for such debtors. In case of such events, we may have recurring bad debts which may adversely affect our business operations and financial conditions.

- 25. *In addition to normal remuneration, other benefits and reimbursement of expenses our Directors (including our Promoters) are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.***

Some of our Directors (including our Promoters) are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration, incentives or benefits and reimbursement of expenses. We cannot assure you that our Directors would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to

affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects.

**26. *There are various negative covenants in the sanction letters issued to us by our lender(s), which could put us at a competitive disadvantage and could have an adverse effect on our business, results of operations and financial condition.***

The sanction letter issued to us contains provisions that restrict our ability to do, among other things, any of the following:

- Changing or alter the Capital Structure of the Company;
- Non-declaring of dividends/ withdrawal of any amount in any form of salary/ remuneration/ incentive/ commission by the Promoters/ Directors in case of overdue with the Bank
- Change in directorship/ ownership/ promoters/ major shareholders without the written consent of the Bank.

Further the company has created a charge on its assets in favour of its banker. In case of default by the company in repayment of the loans, banker may exercise their rights over the security, which may be detrimental to the interest of the company. For further details, please refer "*Financial Indebtedness*" beginning on page no. 160 of this Draft Prospectus.

Additionally, our borrowings are secured by our movable assets (whether existing or future) and by a personal guarantee of our Promoter / Promoter Group/ Directors (excluding Independent Directors). Such securities enable the lenders to cancel any outstanding commitments, accelerate the repayment, exercise cross default provisions and enforce their security interests on the occurrence of events of default such as a breach of financial covenants, failure to obtain the proper consents, failure to perfect security as specified and such other covenants that are not cured. It is possible that we may not have sufficient funds upon such an acceleration of our financial obligations to pay the principal amount and interest in full. Further, if we are forced to issue additional equity to the lenders, your ownership interest in our Company will be diluted. It is also possible that future financing agreements may contain similar or more onerous covenants and may also result in higher interest cost. If any of these events were to occur, our business, results of operations and financial condition may be adversely affected.

**27. *Our Company is dependent on the continuing operation of our manufacturing facilities. Any significant interruption, delay in production at, or shutdown of any of our manufacturing unit could have a material adverse effect on our business, results of operations and financial condition.***

Our Company's Processing house is located at Tarapur, Boisar (MIDC Limits) and Saravali, Bhiwandi (MIDC Limits) which are subject to the normal risks of industrial production, including equipment breakdowns, explosions, labour stoppages, natural disasters, performance below expected levels of output or efficiency, industrial accidents, power interruptions and the need to comply with directives of relevant government authorities. In case of any disruption at such facilities, it may adversely affect the cycle, and may lead to time over-run in the execution of the project.

All of these manufacturing facilities require a significant amount and continuous supply of electricity and any shortage or non-availability of electricity may adversely affect our operations. The manufacturing process of our products requires significant electricity. Our Company depends on Maharashtra State Electricity Distribution Co. Ltd. for unit located at Tarapur, Boisar (MIDC Limits) and Torrent Power Limited for unit located at Saravali, Bhiwandi (MIDC Limits) for supply of our energy requirements. However, our Company owns D.G. sets which we use during such power crisis. But the use of such alternative arrangements is costly and it affects the profitability of our Company.

**28. *We have not made any provisions for decline in value of our Investments***

As on December 31, 2017, we hold investments in Unquoted Equity Instruments aggregating to ₹ 1.00 lakh as per Restated Financial Statements. We have not made any provision for the decline in value of these investments and hence as and when these investments are liquidated, we may book losses based on the actual value we can recover for these investments and if lower than the cost, the same could adversely affect our results of operations.

- 29. *Our operations are subject to high working capital requirements. Our inability to maintain sufficient cash flow, credit facilities and other sources of funding, in a timely manner, or at all, to meet requirement of working capital or pay out debts, could adversely affect our operations.***

Our business requires significant amount of working capital. Major Portion of our working capital is utilized towards debtors and inventory. We have been sanctioned working capital of ₹ 200 lakhs from the existing bankers. Our growing scale and expansion, if any, may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sourcing of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. Further, we have high Debtors which may result in a high risk in case of non-payment by these Debtors. In the event we are not able to recover our dues from our Debtors, we may not be able to maintain our Sales level and thus adversely affecting our financial health.

- 30. *Our operations are prone to fire and could expose us to the risk of liabilities, lost revenues and increased expenses.***

Our operations are subject to fire hazards associated with the large scale processing of textiles in high temperature steam and other processes. This hazard can cause personal injury and loss of life, severe damage to and destruction of property and equipment, and environmental damage, and may result in the suspension of operations and the imposition of civil and criminal liabilities.

There may be additional claims of injury by employees or members of the public due to fire, or alleged exposure to the fire in the future. Liabilities incurred as a result of these events may materially impact our financial position. We maintain Fire insurance against these liabilities, but the insurance proceeds may not be adequate to fully cover the substantial liabilities, lost revenues or increased expenses that we might incur.

- 31. *Excessive dependence on Kotak Mahindra Bank for obtaining various facilities.***

Most of our fund based and non fund base financial assistance has been sanctioned by Kotak Mahindra Bank. We have been sanctioned the financial assistance secured by mortgage of certain properties, personal guarantee of our Promoter and Promoter Group member(s) etc. For further details, please refer the chapter '*Financial Indebtedness*' beginning on page no.160 of this Draft Prospectus. Any default under such arrangement or non renewal, or renewal of the sanction on adverse term with such lender may result into difficulty in arranging of funds for re-payment and may also adversely affect our operations and financials.

- 32. *Our inability to upgrade to the latest technology may adversely affect our growth, market position and profitability.***

Modernisation and technology up-gradation is essential to reduce costs and increase the output. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments. However, our existing state-of-the-art manufacturing units have machineries with latest technology and we strive to keep our technology, equipments and machinery in line with the latest technological standards. But in future, due to advancement in technology we may be required to implement new technology or upgrade the machineries and other equipment's which will lead to additional capital expenditure, so as to compete with our various competitors. In the event that we are not able to respond to such technological advancement in a timely manner, we may lose our competitive edge thereby adversely affecting our profits.

- 33. *Our Promoters play key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoters remain associated with us. Our success also depends on our key managerial personnel and our ability to attract and retain them. Any loss of our key managerial personnel could adversely affect our business, operations and financial condition.***

Our Company is promoted by a group of individuals, having an experience of over 3 decades. The success of our business operations is attributable to our Promoters, Directors and key management personnel. We believe that our relation with our Promoters, who have rich experience in setting up business, developing markets, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We depend significantly on the expertise, experience and continued efforts of our key managerial personnel. For further details on the key managerial personnel of our Company please refer to the chapter titled "*Our Management*" beginning on page no. 99 of this Draft Prospectus. We benefit from our relationship with our Promoters and Key Managerial Persons and our success depends upon their continuing services, who have been responsible for the growth of our

business and are closely involved in the overall strategy, direction and management of our business. Our Promoters has been actively involved in the day to day operations and management since the incorporation of the Company.

Our Promoters, along with the key managerial personnel, have over the years built relations with clients, distributors and other persons who are connected with us. As such, any loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

- 34. *The deployment of the Net Proceeds from the Issue are based on management estimates and have not been independently appraised by any bank or financial institution and is not subject to any monitoring by any independent agency and our Company's management will have flexibility in utilizing the Net Proceeds from the Issue.***

Our Company intends to primarily use the Net Proceeds from the Issue towards Part finance for setting up of processing unit through M/s Jakharia Industries at Tarapur, MIDC and GCP as described in “*Objects of the Issue*” on page no. 56 of this Draft Prospectus. In terms of Regulation 16 of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the Offer size is not in excess of ₹ 10,000 lakhs. The management of our Company will have discretion to use the Net Proceeds from the Issue, and investors will be relying on the judgment of our Company's management regarding the application of the Net Proceeds from the Issue. Our Company may have to revise its management estimates from time to time and consequently its requirements may change. Additionally, various risks and uncertainties, including those set forth in this section “*Risk Factors*”, may limit or delay our Company's efforts to use the Net Proceeds from the Issue to achieve profitable growth in its business.

Further, pursuant to Section 27 of the Companies Act 2013, any variation in the objects would require a special resolution of the Shareholders and our Promoters or controlling Shareholders will be required to provide an exit opportunity to the Shareholders of our Company who do not agree to such proposal to vary the objects, in such manner as may be prescribed in future by the SEBI.

Accordingly, prospective investors in the Offer will need to rely upon our management's judgment with respect to the use of Net Proceeds. If we are unable to enter into arrangements for utilization of Net proceeds as expected and assumed by us in a timely manner or at all, we may not be able to derive the expected benefits from the proceeds of the Offer and our business and financial results may suffer.

- 35. *We have not identified any alternate source of raising the funds mentioned as our ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans and financial performance. Further in case of any delay in the completion of the Issue, there would be a corresponding delay in implementation schedule.***

Our Company has not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and financial performance. The delay/shortfall in receiving these proceeds could result in inadequacy of funds for setting up the processing unit being set up through M/s. Jakharia Industries alongwith Plant and machinery, which may result in borrowing of funds on unfavourable terms for M/s Jakharia Industries, both of which scenarios may affect the business operations of M/s. Jakharia Industries, thereby having an adverse effect on our return on Investment in M/s. Jakharia Industries.

The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to consider alternative source for meeting the fund requirement. We therefore, cannot assure that we would be able to execute the proposed investment plan within the given time frame, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and financial performance.

- 36. *Our future funds requirements, in the form of fresh issue of capital or securities and or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.***

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the

form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

**37. *We may not be able to sustain effective implementation of our business and growth strategies.***

The success of our business will depend greatly on our ability to effectively implement our business and growth strategies. We may not be able to execute our strategies in the future. Further, our growth strategies could place significant demand on our management team and other resources and would require us to continuously develop and improve our operational, financial and other controls, none of which can be assured. Any failure on our part to scale up our infrastructure and management could cause disruptions to our business and could be detrimental to our long term business outlook.

Further, we operate in a highly dynamic industry, and on account of changes in market conditions, industry dynamics, technological improvements or changes and any other relevant factors, our growth strategy and plans may undergo changes or modifications, and such changes or modifications may be substantial, and may even include limiting or foregoing growth opportunities if the situation so demands. Our inability to implement our business strategies and sustain our growth may impair our financial growth and thus result in an adverse impact on our Company's share price.

**38. *Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.***

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes, and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected.

**39. *Our employees may unionize in the future, thereby restricting the flexibility of our labour policies.***

As on date, our employees are not represented by any labour union. However, our employees may unionise in the future. While we consider our current labour relations to be satisfactory there can be no assurance that we will not experience future disruptions to our operations due to disputes including strikes, work stoppages, or increase wage demands by our employees or other problems with work force which may adversely affect our business or operations. In that case, there may be restrictions on the flexibility of our labour policies.

**40. *We may face a risk on account of not meeting our export obligations.***

We have obtained licenses under Export Promotion Capital Goods scheme ("EPCG") as listed under the heading "EPCG Licences" in the chapter titled "Our Business". As per the licensing requirement under the said scheme, we are required to export goods of a defined amount, failing which, we have to make payment to the Government of India equivalent to the duty benefit enjoyed by us under the said scheme along with interest. As on December 31, 2017 our export obligation is USD 35.91 lakhs. In case of any default, our company will have to bear the penalty, which may have an impact on the financial condition of our Company.

**41. *Our Promoter and Promoter Group will continue to retain majority shareholding in us after the Issue, which will allow them to exercise significant influence over us and potentially create conflicts of interest.***

After the completion of Initial Public issue of up to 10,92,000 new equity shares to general public still, our Promoter and Promoter Group may beneficially own approximately 67.39 % of our post-Issue equity share capital. As a result, the Promoter Group may have the ability to control our business including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the

Company even if it is in the Company's best interest. In addition, for so long as the Promoter Group continues to exercise significant control over the Company, they may influence the material policies of the Company in a manner that could conflict with the interests of our other shareholders. The Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.

**42. *The rate of interest for the loans obtained by us from the bank is variable and any increase in interest rates may adversely affect our results of operations and financial condition.***

Our Company is susceptible to changes in interest rates and the risks arising there from. Our sanction letters provide for interest at variable rates with a provision for the periodic resetting of interest rates. Further the lenders are entitled to change the applicable rate of interest depending upon the policies of the RBI and a contractually agreed spread, and in the event of an adverse change in our Company's credit risk rating. For further details of interest payable on our borrowings, please refer to the chapter titled "*Financial Indebtedness*" on page no. 160 of this Draft Prospectus. Further, in recent years, the Government of India has taken measures to control inflation, which have included tightening the monetary policy by raising interest rates. As such, any increase in interest rates may have an adverse effect on our business, results of operations, cash flows and financial condition.

**43. *Our Promoters and Directors (except Independent Directors) have extended personal guarantees in connection with certain of our debt facilities. There can be no assurance that such personal guarantees will be continued to be provided by our Promoters/ Directors in the future or can be called at any time, affecting the financial.***

Our Promoters and Directors (except Independent Directors) have provided personal guarantees for our borrowings to secure our loans. If any of these guarantees are revoked, our lenders may require alternative guarantees or collateral or cancellation of such facilities, entailing repayment of amounts outstanding under such facilities. If we are unable to procure alternative guarantees satisfactory to our lenders, we may need to seek alternative sources of capital, which may not be available to us at commercially reasonable terms or at all, or to agree to more onerous terms under our financing agreements, which may limit our operational flexibility. Accordingly, our business, financial condition, results of operations, cash flows and prospects may be adversely affected by the revocation of all or any of the personal guarantees provided by our Promoters/ Directors in connection with our Company's borrowings.

**44. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures and there can be no assurance that we will be able to pay dividends in the future.***

We currently intend to invest our future earnings, if any, to fund our growth. The amount of our future dividend payments, if any, will depend upon our future earnings, financial condition, cash flows, working capital requirements and capital expenditures. Hence, there can be no assurance that we will be able to pay dividends in the future.

**45. *We have not independently verified certain data in this Draft Prospectus.***

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

These facts and statistics included in "*Summary of Industry*" and "*Industry Overview*" on pages nos. 29 and 69 respectively of this Draft Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

**46. *The requirements of being a public listed company may strain our resources and impose additional requirements.***

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchanges which require us to file unaudited financial results on a quarterly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

**RISK FACTORS RELATED TO EQUITY SHARES**

**47. *Any further issuance of Equity Shares by Our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.***

Any future issuance of Equity Shares by our Company could dilute the investors' shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares, and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

**48. *There is no existing market for our Equity Shares, and we do not know if one will develop. Our stock price may be highly volatile after the Issue and, as a result, you could lose a significant portion or all of your investment.***

There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all and any trading closures at the Stock Exchanges may adversely affect the trading price of our Equity Shares. Prior to the Issue, there has not been a public market for the Equity Shares of our Company. Further, we cannot predict the extent to which investor interest will lead to the development of an active trading market on the Stock Exchanges or how liquid that market will become. If an active market does not develop, you may experience difficulty selling the Equity Shares that you purchased. The Issue Price is not indicative of prices that will prevail in the open market following the Issue. Consequently, you may not be able to sell your Equity Shares at prices equal to or greater than the Issue Price. The market price of the Equity Shares on the Stock Exchanges may fluctuate after listing as a result of several factors, including the following:

- Volatility in the Indian and other Global Securities Markets;
- The performance of the Indian and Global Economy;
- Risks relating to our business and industry, including those discussed in this Draft Prospectus;
- Strategic actions by us or our competitors;
- Investor perception of the investment opportunity associated with the Equity Shares and our future performance;
- Adverse media reports about us, our shareholders or Group Companies;
- Future sales of the Equity Shares;
- Variations in our quarterly results of operations;
- Differences between our actual financial and operating results and those expected by investors and analysts;
- Our future expansion plans;
- Perceptions about our future performance or the performance of Textile companies generally;
- Performance of our competitors in the Indian textile industry and the perception in the market about investments in the textile sector;
- Significant developments in the regulation of the textile industry in our key locations;
- Changes in the estimates of our performance or recommendations by financial analysts;
- Significant developments in India's economic liberalisation and deregulation policies; and
- Significant developments in India's fiscal and environmental regulations. There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share

Price could fluctuate significantly as a result of market volatility. A decrease in the market price of the Equity Shares could cause you to lose some or all of your investment.

**49. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.***

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements, and that of our Subsidiary and the dividends they distribute to us. In the past, we have not made dividend payments to the Shareholders of our Company. The Company may decide to retain all future earnings, if any, for use in the operations and expansion of the business. In such situation, the Company may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot state with any certainty whether we will be able to pay dividends in the future. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

**50. *You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.***

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("STT") has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Any gain realized on the sale of shares held for more than 36 months to an Indian resident, which are sold other than on a recognized stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of equity shares held for a period of 36 months or less which are sold other than on a recognized stock exchange and on which no STT has been paid, may be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

## **EXTERNAL RISK FACTORS**

**51. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations, financial condition and prospects.***

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations, financial condition and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

**52. *The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.***

A majority of the provisions and rules under the Companies Act, 2013 have recently been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in Draft Prospectus, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing. Further, companies meeting certain financial thresholds are also required to constitute a committee of the board of directors for corporate social responsibility activities and ensure that at least 2% of the average net profits of the company during three immediately preceding financial years are utilized for corporate social responsibility activities. Penalties for instances of non-compliance have been prescribed under the Companies Act, 2013, which may result in inter alia, our Company, Directors and key managerial employees being subject to such penalties and formal actions as prescribed under the Companies

Act, 2013, should we not be able to comply with the provisions of the New Companies Act within the prescribed timelines, and this could also affect our reputation.

To ensure compliance with the requirements of the Companies Act, 2013 within the prescribed timelines, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention. While we shall endeavour to comply with the prescribed framework and procedures, we may not be in a position to do so in a timely manner.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. Additionally, some of the provisions of the Companies Act, 2013 overlap with other existing laws and regulations (such as the corporate governance norms and insider trading regulations). We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013, which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

**53. *Any changes in the regulatory framework could adversely affect our operations and growth prospects.***

Our Company is subject to various regulations and policies. For details see section titled “*Key Industry Regulations and Policies*” beginning on page no. 86 of this Draft Prospectus. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse affect on our business, financial condition and results of operations.

**54. *Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse affects on our operations and financial performance.***

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

**55. *Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.***

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely affect our business. In addition, any deterioration in relations between India and neighbouring countries might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

**56. *Instability in financial markets could materially and adversely affect our results of operations and financial condition.***

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in

other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets.

The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in Nifty, NSE's/SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

**57. Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our Company's business.**

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our Company's ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could harm our Company's business and financial performance and ability to obtain financing for capital expenditures.

**58. Conditions in the Indian securities market and stock exchanges may affect the price and liquidity of our Equity Shares.**

Indian stock exchanges, which are smaller and more volatile than stock markets in developed economies, have in the past, experienced problems which have affected the prices and liquidity of listed securities of Indian companies. These problems include temporary exchange closures to manage extreme market volatility, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and restricted margin requirements. Further, disputes have occurred on occasion between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected. Further, a closure of, or trading stoppage on, either of the Stock Exchanges could adversely affect the trading price of our Equity Shares.

### OVERVIEW OF THE GLOBAL AND INDIAN ECONOMY

#### Global Scenario

Inflation is expected to firm up during the first quarter of 2018-19 before moderating in the remaining part of 2018-19 as the direct impact of the increase in house rent allowances for central government employees fades away, which has to be looked through. Economic activity is expected to accelerate with the strengthening of investment activity, supported by consumption demand and robust credit growth.

The Monetary Policy Report (MPR) of October 2017 flagged significant shifts underway in the macroeconomic environment. Some of them have gained traction since then while others are incipiently in motion. Global economic activity has continued to strengthen and is becoming increasingly synchronised across regions. Global trade is outpacing demand after lagging behind for two years. Oil prices have firmed up again on the edge of a delicate demand-supply balance. Generally buoyant global financial markets have been interrupted by bouts of volatility triggered by several event-specific announcement effects, and most recently by reassessments of the pace of monetary policy normalisation in the US. Renewed fears of protectionism, retaliatory actions and trade wars pose a major challenge to the global economy, with implications for emerging market economies (EMEs), including India, that are participating in open international trade and relying on foreign capital flows to realise their developmental aspirations.

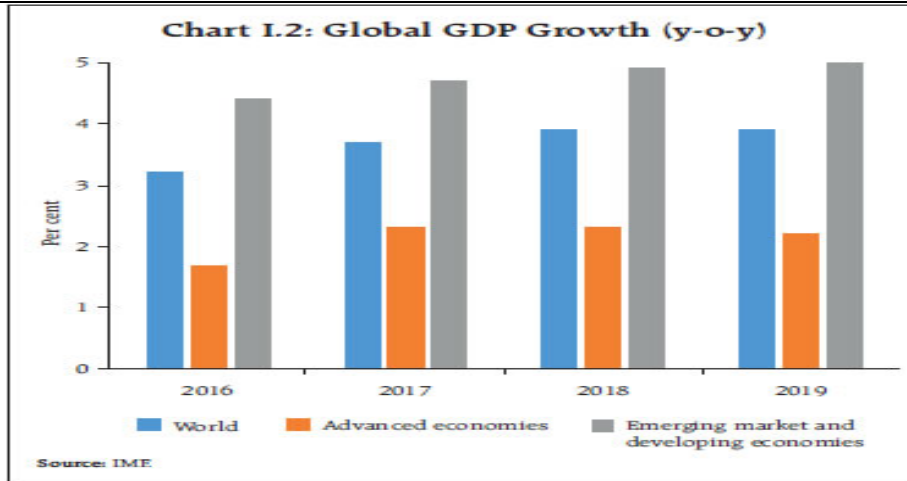

After languishing for five consecutive quarters, economic activity in India is quickening, as estimates and high frequency as well as survey-based indicators etch out for the second half of 2017-18. Growth is strengthening and several elements are coming together to nurture this nascent acceleration: expectations of a record food grains output; strong sales growth by corporations; depleting finished goods inventories; and, restart of investment in fixed assets by corporations pointing to renewal of the capex cycle. Several services sectors, including the information technology sector in terms of its international competitiveness, have shown resilience. These are some of the developments that support brighter prospects for the Indian economy in 2018-19. A significant development has been that this time around, the step-up in growth is propelled by a revival of investment on the demand side and manufacturing on the supply side. This outlook will be lifted by tailwinds from remonetisation and implementation of Goods and Services Tax (GST).

The path of inflation will likely be influenced by effects of the increase in house rent allowances (HRAs) for central government employees, which is purely statistical and has to be looked through to gauge true inflation developments.

#### Conclusion

To summarise, aggregate demand is expected to improve in 2018-19, supported, inter alia, by the improving GST implementation, the recapitalisation of public sector banks and the resolution of distressed assets under the IBC. Rural and infrastructure sectors are identified as thrust areas in the Union Budget, which could energise aggregate demand. With the acceleration in global trade, the Indian economy could benefit from buoyant external demand. In addition to the usual monsoon related uncertainty, inflation faces upside risks from a variety of other sources, especially due to the oil prices, the fiscal slippage, and (the statistical effect from) the expected increases in HRAs by the state governments. The purely direct statistical impact of the HRA adjustment on CPI will be looked through while formulating monetary policy. Uncertainty over the pace and timing of monetary policy normalisation by the systemic central banks in advanced economies, protectionist tendencies and fears of a trade war pose significant risks to the baseline inflation and growth paths.

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 13 per cent of total exports. The textiles industry is also labour intensive and is one of the largest employers. The textile industry has two broad segments. The second is the organised sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale.

The textile industry employs about 45 million people directly and 20 million people indirectly. India's overall textile exports during FY 2015-16 stood at US\$ 40 billion.

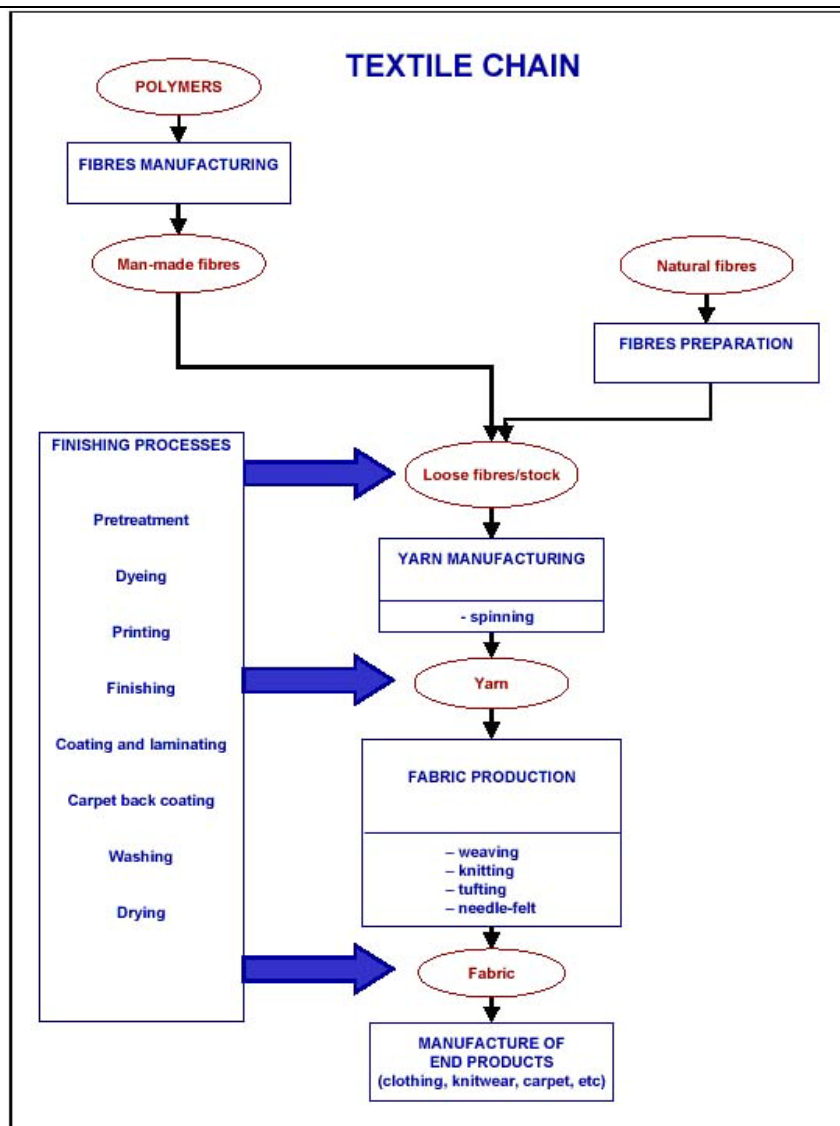

The Indian textiles industry is extremely varied, with the hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital intensive sophisticated mills sector at the other end of the spectrum. The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of the textile industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles make the Indian textiles sector unique in comparison to the industries of other countries. The Indian textile industry has the capacity to produce a wide variety of products suitable to different market segments, both within India and across the world.

<p><b>Cotton Linen Fabric</b></p> 	<p><b>Cotton Polyester Fabric</b></p>

### Manufacturing Process

Our Company is engaged in the business of dyeing and processing of fabrics on job work basis and also of its own. In order to deliver such bleached, dyed, printed and finished fabric to our customers, our Company procures certain raw materials from the market and further dyes, prints and finishes the same as per their requirement on the basis of quality of the fabric, sizing requirements etc. We outsource some of the activities like weaving of the fabric and printing as per the demand of the customers based on the quality required.

### **Grey Fabric**

We use grey fabric provided by our customers as major input apart from colours, chemicals, steam, power and machine for wet processing. Grey Fabric is passed through several water intensive wet processing stages. These processes enhance the appearance, durability and serviceability of the fabric and make the fabric worth of apparel making.

### ***Singeing & Desizing***

Under Singeing, the fabric is run on gas flame to remove the loose and excess protruding fibres from the surface of the fabric, which is burnt during the process.

Once the Singeing Process is done, the fabric is passed through Desizing Machine, wherein it is subjected to de-sizing with the help of Chemicals. Further the fabric is washed with the help of hot water and scouring chemicals through which most of the sizes and other natural as well as added impurities are eliminated. Further, in order to make the fabric fit for further process, the fabric is impregnated with enzyme solution to remove chemicals used during sizing process.

### ***Bleaching***

De-sized and scoured fabric still contains colouring matters which include natural pigments or added colours. Fabric is subjected to bleaching to remove colouring matters by treating fabric with bleaching agents. The bleaching process is essential for obtaining a good whiteness depending upon whether the fabric is dyed or finished pure white. This process is carried out on Jiggers. After bleaching fabric is dried and given optical whitener treatment if white fabric is the end product or subjected to drying and dyeing.

### ***Mercerizing***

This operation involves treatment of fabric with cold concentrated caustic and results into enhanced durability of fabric, smoothness of surface and shining of fabric due to molecular reorientation. Fabrics are treated on Merceriser to obtain luster for good appearance and dye absorbency. There are also additional benefits like savings on dyeing cost and improvement in the strength of fabrics.

After mercerization, fabric is washed, dried and sent for further process. The fabrics so washed are then clean and absorbent. This process is very important for obtaining good quality results in dyeing.

### ***Dyeing***

The dyeing process consists of application of dyestuff solution in hydraulic jiggers by an exhaustion method. Scoured and/or bleached fabric is converted into rolls to dye the fabric as per end use and to impart desired coloration (shades). The fabric is passed through various machines like Jigger Machine, Jet Dyeing Machines, soft flow machines etc, wherein the fabric is dyed with the help of various dyes, Auxiliaries and Chemicals and it is kept in Rotating Machine for colour fixation.

Colour is fixed on fabric and after ensuring correct shade after inspection, fabric is soaped, washed and dried and sent for further process i.e. finishing.

In case of white color fabric, it is passed through Optical Brightening Range, wherein the fabric is treated with the help of Whitening Agents, Whitening Chemicals and auxiliaries and further sent for finishing.

### ***Drying and Shrinking:***

It is a process of drying bleached/ dyed fabric to the required width in the hot air stenter. The fabric is passed through Shrinking range Machine wherein the shrinkage is managed as per the requirement of the customer and the quality of the fabric required. Cloth having undergone this process would not shrink abnormally further after repeated washes thereby maintaining the dimensional stability of the fabric.

## Finishing

Dyed, printed or bleached fabric is subjected to finishing. Finishing is done to keep control on width, shrinkage and finish of the fabric. Getting the right finish is very important from the end user perspective. This is one of the important value additions which we provide in the fabrics we manufacture.

Chemical finishing imparts desired weight and fall to fabric and also incorporates desired properties of viz. water proofing, fire resistance, anti bacterial properties, softness, fragrance etc. This operation ensures dimensional restructuring and stability of fabric. Mostly high speed stenters are used for this process.

After chemical finishing, fabric is subjected to mechanical finishing, imparting dimensional stability. The fabric is passed through various different machines finishing machines like Stenter, Airo machine, Seuding Machines, Shairing Machine etc., depending on the quality of the fabric required by the end customer. The penultimate finishing of fabric is always done on a stenter. Calendaring is done to impart shining and smooth feel to end product.

## Inspection, Packing and Dispatch

Finished fabric is sent to checking department for quality inspection. We maintain high standards for quality control and have semi – automatic / mechanical machines and manual checking being operated by skilled operators under proper quality control and strict supervision.

Once the inspection is done based on various parameters like sizing, quality etc. the products are sent further for packing as per the requirement of the customer. The fabric is passed through the Folding Machine for final packing. In case the customer requires the fabric in roll form/ vacuum packing form, the same is passed through rolling machine/ Vacuum Machine. The fabric is packed as per the customer requirement.

The restated summary statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of restated summary statements are consistent with those of previous year, except for the change in accounting policy explained below

These Restated Statements and Other Financial Information have been prepared for inclusion in the Offer Document to be filed by the Company with the Securities and Exchange Board of India ('SEBI') in connection with proposed Initial Public Offering of its equity shares, in accordance with the requirements of:

(a) Sub-clause (i), (ii) and (iii) of clause (b) of Sub-section (1) of Section 26 of Part 1 Chapter III of the Act read with Rule 4 of Companies (Prospectus and Allotment of Securities) Rules, 2014; and

(b) relevant provisions of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended (the "Regulations") issued by the Securities and Exchange Board of India ('SEBI') on 26 August 2009, as amended from time to time in pursuance of the Securities and Exchange Board of India Act, 1992.

These statements and other financial information have been prepared after incorporating adjustments for the material amounts in the respective years to which they relate.

#### **(B) USE OF ESTIMATES**

The preparation of restated summary statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

#### **(C) PROPERTY, PLANT & EQUIPMENT**

Property, Plant and Equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life.

Gains or losses arising from derecognition of Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

**(D) DEPRECIATION:**

Depreciation on Property, Plant and Equipment is calculated on a Written Down Value basis using the rates arrived at based on the useful lives estimated by the management. The identified components are depreciated separately over their useful lives; the remaining assets are depreciated over the life of the principal asset.

The Company has assessed the following useful life to depreciate and amortize on its property, plant and equipment and intangible assets respectively.

## **5.6 BASIS OF ALLOCATION**

- a) The SEBI ICDR Regulations, 2009 specify the allocation or Allotment that may be made to various categories of Applicants in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Prospectus. For details in relation to allocation, the Applicant may refer to the Prospectus.
- b) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLMs and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations, 2009. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- c) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Applicants may refer to the Prospectus.
- d) Illustration of the Book Building and Price Discovery Process Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹ 20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer in consultation with the BRLMs, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

#### e) Alternate Method of Book Building

In case of FPOs, Issuers may opt for an alternate method of Book Building in which only the Floor Price is specified for the purposes of bidding (“Alternate Book Building Process”).

The Issuer may specify the Floor Price in the Prospectus or advertise the Floor Price at least one Working Day prior to the Bid/ Issue Opening Date. QIBs may Bid at a price higher than the Floor Price and the Allotment to the QIBs is made on a price priority basis. The Bidder with the highest Bid Amount is allotted the number of Equity Shares Bid for and then the second highest Bidder is Allotted Equity Shares and this process continues until all the Equity Shares have been allotted. RIIs, NIIs and Employees are Allotted Equity Shares at the Floor Price and Allotment to these categories of Bidders is made proportionately. If the number of Equity Shares Bid for at a price is more than available quantity then the Allotment may be done on a proportionate basis. Further, the Issuer may place a cap either in terms of number of specified securities or percentage of issued capital of the Issuer that may be Allotted to a single Bidder, decide whether a Bidder be allowed to revise the bid upwards or downwards in terms of price and/or quantity and also decide whether a Bidder be allowed single or multiple bids.

## SECTION 6: ISSUE PROCEDURE IN FIXED PRICE ISSUE

**Applicants may note that there is no Bid cum Application Form in a Fixed Price Issue.** As the Issue Price is mentioned in the Fixed Price Issue therefore on filing of the Prospectus with the RoC, the Application so submitted is considered as the Application Form.

Applicants may only use the specified Application Form for the purpose of making an Application in terms of the Prospectus which may be submitted through the Designated Intermediary.

Applicants may submit an Application Form either in physical form to the any of the Designated Intermediaries or in the electronic form to the SCSB or the Designated Branches of the SCSBs authorising blocking of funds that are available in the bank account specified in the Application Form only (“ASBA Account”). The Application Form is also made available on the websites of the Stock Exchanges at least one day prior to the Bid/Issue Opening Date.

In a fixed price Issue, allocation in the net issue to the public category is made as follows: minimum fifty per cent to Retail Individual Investors; and remaining to (i) individual investors other than Retail Individual Investors; and (ii) other Applicants including corporate bodies or institutions, irrespective of the number of specified securities applied for. The unsubscribed portion in either of the categories specified above may be allocated to the Applicants in the other category.

For details of instructions in relation to the Application Form, Applicants may refer to the relevant section of the GID.

## **SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT**

The Allotment of Equity Shares to Applicants other than Retail Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Applicants may refer to Prospectus. No Retail Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue (excluding any Offer for Sale of specified securities). However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

### **7.1 ALLOTMENT TO RIIs**

Bids received from the RIIs at or above the Issue Price may be grouped together to determine the total demand under this category. If the aggregate demand in this category is less than or equal to the Retail Category at or above the Issue Price, full Allotment may be made to the RIIs to the extent of the valid Bids. If the aggregate demand in this category is greater than the allocation to in the Retail Category at or above the Issue Price, then the maximum number of RIIs who can be Allotted the minimum Bid Lot will be computed by dividing the total number of Equity Shares available for Allotment to RIIs by the minimum Bid Lot ("Maximum RII Allottees"). The Allotment to the RIIs will then be made in the following manner:

- a) In the event the number of RIIs who have submitted valid Bids in the Issue is equal to or less than Maximum RII Allottees, (i) all such RIIs shall be Allotted the minimum Bid Lot; and (ii) the balance available Equity Shares, if any, remaining in the Retail Category shall be Allotted on a proportionate basis to the RIIs who have received Allotment as per (i) above for the balance demand of the Equity Shares Bid by them (i.e. who have Bid for more than the minimum Bid Lot).
- b) In the event the number of RIIs who have submitted valid Bids in the Issue is more than Maximum RII Allottees, the RIIs (in that category) who will then be Allotted minimum Bid Lot shall be determined on the basis of draw of lots.

### **7.2 ALLOTMENT TO NIIs**

Bids received from NIIs at or above the Issue Price may be grouped together to determine the total demand under this category. The Allotment to all successful NIIs may be made at or above the Issue Price. If the aggregate demand in this category is less than or equal to the Non-Institutional Category at or above the Issue Price, full Allotment may be made to NIIs to the extent of their demand. In case the aggregate demand in this category is greater than the Non-Institutional Category at or above the Issue Price, Allotment may be made on a proportionate basis up to a minimum of the Non-Institutional Category.

### **7.3 ALLOTMENT TO QIBs**

For the Basis of Allotment to Anchor Investors, Applicants may refer to the SEBI ICDR Regulations, 2009 or Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner:

- a) In the first instance allocation to Mutual Funds for up to 5% of the QIB Category may be determined as follows: (i) In the event that Bids by Mutual Fund exceeds 5% of the QIB Category, allocation to Mutual Funds may be done on a proportionate basis for up to 5% of the QIB Category; (ii) In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Category then all Mutual Funds may get full Allotment to the extent of valid Bids received above the Issue Price; and (iii) Equity Shares remaining unsubscribed, if any and not allocated to Mutual Funds may be available for Allotment to all QIBs as set out at paragraph 7.4(b) below;

In the second instance, Allotment to all QIBs may be determined as follows: (i) In the event of oversubscription in the QIB Category, all QIBs who have submitted Bids above the Issue Price may be Allotted Equity Shares on a proportionate basis for up to 95% of the QIB Category; (ii) Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis along with other QIBs; and (iii) Under-subscription below 5% of the QIB Category, if any, from Mutual Funds, may be included for allocation to the remaining QIBs on a proportionate basis.

#### 7.4 ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)

- a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Issue Price will be at the discretion of the issuer in consultation with the Investor and the BRLMs, subject to compliance with the following requirements:
- 1) not more than 60% of the QIB Category will be allocated to Anchor Investors;
  - 2) one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and

Based on the physical book and at the discretion of the issuer in consultation with the BRLMs, selected Anchor Investors will be sent a CAN and if required, a revised CAN.
- c) **In the event that the Issue Price is higher than the Anchor Investor Issue Price:** Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Issue Price and the Anchor Investor Issue Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors.
- d) **In the event the Issue Price is lower than the Anchor Investor Issue Price:** Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

#### 7.5 BASIS OF ALLOTMENT FOR QIBs (OTHER THAN ANCHOR INVESTORS), NIIs AND RESERVED CATEGORY IN CASE OF OVER-SUBSCRIBED ISSUE

In the event of the Issue being over-subscribed, the Issuer may finalise the Basis of Allotment in consultation with the Designated Stock Exchange in accordance with the SEBI ICDR Regulations, 2009.

The allocation may be made in marketable lots, on a proportionate basis as explained below:

- a) Bidders may be categorized according to the number of Equity Shares applied for;
- b) The total number of Equity Shares to be Allotted to each category as a whole may be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over-subscription ratio;
- c) The number of Equity Shares to be Allotted to the successful Bidders may be arrived at on a proportionate basis, which is total number of Equity Shares applied for by each Bidder in that category multiplied by the inverse of the over-subscription ratio;
- d) In all Bids where the proportionate Allotment is less than the minimum Bid Lot decided per Bidder, the Allotment may be made as follows: the successful Bidders out of the total Bidders for a category may be determined by a draw of lots in a manner such that the total number of Equity Shares Allotted in that category is equal to the

number of Equity Shares calculated in accordance with (b) above; and each successful Bidder may be Allotted a minimum of such Equity Shares equal to the minimum Bid Lot finalised by the Issuer;

- e) If the proportionate Allotment to a Bidder is a number that is more than the minimum Bid lot but is not a multiple of one (which is the marketable lot), the decimal may be rounded off to the higher whole number if that decimal is 0.5 or higher. If that number is lower than 0.5 it may be rounded off to the lower whole number. Allotment to all Bidders in such categories may be arrived at after such rounding off; and
- f) If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares Allotted to the Bidders in that category, the remaining Equity Shares available for Allotment may be first adjusted against any other category, where the Allotted Equity Shares are not sufficient for proportionate Allotment to the successful Bidders in that category. The balance Equity Shares, if any, remaining after such adjustment may be added to the category comprising Bidders applying for minimum number of Equity Shares.

## RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), issued consolidated FDI Policy, which with effect from August 28, 2017 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 28, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

**The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws.
