INTERNAL RISK FACTORS

- 1. Our Company is party to certain legal proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.**

Our Company is party to certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts and tribunals / forums. Mentioned below are the details of the proceedings involving our Company as on the date of this Prospectus along with the amount involved, to the extent quantifiable, based on the materiality policy for litigations, as approved by the Company in its Board meeting held on September 11, 2017.

Sr. No.	Nature of Case	No. of Outstanding cases	Amount in dispute / demanded to the extent quantifiable (in ₹) ⁽¹⁾
1.	Litigations against our Company		
(a)	Statutory/Regulatory Authorities	1	Not Quantifiable
(b)	Direct Tax	1	74,33,874/-

⁽¹⁾ *The amount mentioned above may be subject to additional interest rates and/or penalties being levied by the concerned authorities for delay in making payment or otherwise. Amount of interest and/ or penalty that may be levied is unascertainable as on the date of this Prospectus.*

There can be no assurance that these litigations will be decided in our favour or in favour of our Company and consequently it may divert the attention of our management and Promoter and waste our corporate resources and we may incur significant expenses in such proceedings and may have to make provisions in our financial

statements, which could increase our expenses and liabilities. If such claims are determined against us, there could be a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares. For the details of the cases filed by and against our Company, please refer the chapter titled “*Outstanding Litigations and Material Developments*” on page no. 178 of this Prospectus.

2. *We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations, and the failure to obtain or retain them in a timely manner or at all may adversely affect our operations.*

We require several statutory and regulatory permits, licenses and approvals to operate our business, some of which our Company has either received, applied for or is in the process of application. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company's operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all.

Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. Our Company had made the following applications: (i) Application filed for renewal of the Factory License bearing no. Kalyan/2(m)(i)/13124-493-A; (ii) Renewal of Certificate of Verification under the Legal metrology Act bearing no. 422893; (iii) Application bearing no. 3395982 for registration of the Trade Mark ‘cotbbelly's’ dated October 26, 2016 under the Trade Marks Act, 1999; (iv) Application bearing no. 3395981 for registration of the Trade Mark ‘Pierricarlo’ dated October 26, 2016 under the Trade Marks Act, 1999; (v) Application bearing no. 3618820 filed for registration of the Trade Mark ‘Earthen Belly’ dated August 23, 2017 under the Trade Marks Act, 1999; and (vi) Application bearing no. 3618819 filed for registration of the Trade Mark ‘S&S’ dated August 23, 2017 under the Trade Marks Act, 1999. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. Further, our Company is required to obtain the (i) No Objection Certificate/ Approval from the Chief Fire Officer in accordance with the provisions of the Maharashtra Fire Prevention and Life Safety Measures Act, 2006; and (ii) file the Information Memorandum in Form 1-A under Clause 4 of Textile (Development and Regulation) Order, 2001 before the Textile Commissioner for installation of textile machinery. However, the same has not been obtained / filed by the Company as on the date of filing the Prospectus and our Company may therefore be liable to penalties/seizure of its machinery/actions as may be mandated by the applicable legislations. Further, if we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change, we may incur increased costs, be subject to penalties or suffer a disruption in our business activities, any of which could adversely affect our results of operations.

For further details, please refer chapters titled “*Key Industry Regulations and Policies*” and “*Government and Other Statutory Approvals*” on page nos. 103 and 186 respectively of this Prospectus.

3. *Substantial portion of our revenues has been dependent upon our few clients. The loss of any one or more of our major clients would have a material effect on our business operations and profitability.*

Our customers include various distributors that market our products, direct sellers and also large corporate houses. For the financial year ended March 31, 2017 and for six month period ended September 30, 2017, our top ten clients accounted for approximately 87.92% and 95.45% of our gross revenue from operations. The loss of any significant client would have a material effect on our financial results. We cannot assure you that we can maintain the historical levels of business from these clients/distributors or that we will be able to replace these clients/distributors in case we lose any of them. Furthermore, major events affecting our clients, such as bankruptcy, change of management, mergers and acquisitions could impact our business. If any of our major clients becomes bankrupt or insolvent, we may lose some or all of our business from that client and our receivable from that client would increase and may have to be written off, impacting our income and financial condition.

- 4. We do not have any long-term agreement or contract for supply of Yarn and Grey Fabric used in our manufacturing unit or other service providers due to which we may face disruptions in supply from our current suppliers or service providers and are also exposed to price and supply fluctuations for our raw materials.**

We are, to a major extent, dependent on external suppliers for our raw materials requirements and we do not have any long-term supply agreements or commitments in relation to the same or for any other raw materials used in our manufacturing process and typically transact on an invoice basis for each order. There can be no assurance that there will not be a significant disruption in the supply of raw materials or finished products from current sources or, in the event of a disruption, that we would be able to locate alternative suppliers of materials or third party manufacturers of comparable quality on terms acceptable to us, or at all. Identifying a suitable supplier involves a process that requires us to become satisfied with their quality control, responsiveness and service, financial stability and labour and other ethical practices. Consequently, we are also exposed to price fluctuations in yarn, grey cloth and other raw materials, and these fluctuations may adversely affect our ability to obtain orders and/or to execute them in a timely manner, which would have a material adverse effect on our business, results of operations and financial condition.

In case of non-availability of raw materials on favourable terms, we may have to procure the same at the terms and conditions prevalent at that point. This will result in reducing our revenues by a considerable amount due to shortage of raw material or due to inability to procure the same. Further, unfavourable terms of raw materials may also force us to reduce the scale of our operations resulting in a down-sizing of our overall business. We may have to put on hold any expansion plans and our future growth will be severely stunted. Any delay, interruption or increased cost in the supply of yarn / fabric arising from a lack of long-term contracts could have an adverse effect on our ability to meet customer demand for our products and result in lower revenue from operations both in the short and long term.

- 5. We do not have any agreement with the third party service providers to whom we outsource some processes like sizing and other allied work; consequently we are exposed to price and supply fluctuations for the same.**

Our Company relies on local third parties for outsourcing some of the processes like sizing, dyeing and other chemical related work on yarn, grey fabric and finished fabric. We outsource work to them on invoice basis and have no agreements with them. Further, we cannot assure you that our third party service providers will continue to be associated with us on reasonable terms, or at all. Since such third party service providers are not contractually bound to deal with us exclusively, we may face the risk of our competitors offering better terms to such third party service providers, which may cause them to cater to our competitors alongside, or even instead of us. Also, in the absence of any contract, they may discontinue their job-work on a short notice and our production process may be stalled or hindered due to this. We may have to rely on in-experienced or costlier or unprofessional processing units which may compromise the quality of our finished products.

Consequently, we may be exposed to price and supply fluctuations in these areas which may have a material effect on our business, results of operations and financials.

In case of we are unable to outsource our various processes and other chemical related work on yarn, grey fabric and finished fabric works locally, we may have to get this work done at the terms and conditions prevalent at that point. Further, this may result in us reducing our scale of operations resulting in downsizing of our overall business. We may have to put on hold any expansion plans and our future growth will be severely stunted.

- 6. Our Company has not entered into any long-term contracts with most of its customers and we typically operate on the basis of orders. Inability to maintain regular order flow would adversely impact our revenues and profitability**

Our Company has had long standing business relationships with certain customers and has been supplying our products to such customers for several years. However, we have not entered into any contracts with these customers and we cater to them on an order-by-order basis; except with Raymond Limited, with whom we have entered into an Agreement dated November 05, 2015. As a result, our customers can terminate their relationships with us without any notice and, without consequence, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in demand for our products. Our Company's customers have no obligation to place order with us and may either cancel, reduce or delay orders. The orders placed by our Company's customers are dependent on factors such as the customer satisfaction with the

level of service that our Company provides, fluctuation in demand for our Company's products and customer's inventory management.

Although we place a strong emphasis on quality, timely delivery of our products and after sales service such as feedback on the trends in their market, personal interaction by the top management with the customers, etc., in the absence of contracts, any sudden change in the buying pattern of buyers could adversely affect the business and the profitability of our Company.

Further, though our agreement with Raymond Ltd. has been signed for an indefinite period, the agreement is liable to be terminated on notice basis and also on non-fulfilment of its terms. If we fail to comply with the terms, including quality of the product and timeliness of the delivery, not only we may face a termination of this agreement, but will also adversely affect our market reputation which in turn may affect our business operations and financial condition.

7. *Inventories and trade receivables form a major part of our current assets and net worth. Failure to manage our inventory and trade receivables could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

Our Company's business is working capital intensive and hence, inventories and trade receivables form a major part of our current assets and net worth. The results of operations of our business are dependent on our ability to effectively manage our inventory (raw material and finished goods) and trade receivables.

To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and purchase new inventory accordingly. However, if our management misjudges expected customer demand, it could cause either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture or purchase, we may be required to write-down our inventory or pay our suppliers without new purchases, or create additional vendor financing, all of which could have an adverse impact on our income and cash flows.

To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and dealers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if our management fails to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

8. *Our operations are subject to high working capital requirements. Our inability to maintain sufficient cash flow, credit facilities and other sources of funding, in a timely manner, or at all, to meet requirement of working capital or pay out debts, could adversely affect our operations.*

Our business requires significant amount of working capital. Major Portion of our working capital is utilized towards debtors and inventory. We have a sanctioned limit for working capital of ₹ 5,329.50 lakhs from the existing bankers / financial institutions, including fund based (₹ 3,509.50 lakhs) and non fund based (₹ 1,820.00 lakhs) limits. Our growing scale and expansion, if any, may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sourcing of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations.

Further, we have high Debtors which may result in a high risk in case of non-payment by these Debtors. In the event we are not able to recover our dues from our Debtors, we may not be able to maintain our Sales level and thus adversely affecting our financial health. If this situation persists, we may not be able to pay our lenders / creditors and we may be forced to go for Corporate Debt Restructuring (CDR) which may result in adversely affecting our operations and future prospects.

- 9. Intellectual property rights are important to our business. Since our business is based on trust and identity and using the same for maintain, acquiring and servicing our clients, it is very important for us to ensure confidentiality of our intellectual property rights. We may be unable to protect them from being infringed by others, including our current and / or future competitors / employees.**

Our trademarks and patents are our material assets and are crucial to our business operations. As on the date of this Prospectus, we have not obtained registration for our new corporate logo “” and also for our brands logos i.e. “”, “” & “”, and hence we do not enjoy the statutory protection accorded to a registered trademark. Though, we have made application for the same under Class 25 and Class 24 with application nos. 3618820, 3395981, 3395982 and 3618819, respectively, there can be no assurance that our application will succeed. Grounds for refusal of registration may include the validity or scope of the application. If we are unable to obtain a registration, we may still continue to use the above mentioned logos but remain vulnerable to infringement and passing-off by third parties and will not be able to enforce any rights against them. We may also need to change our logos which may adversely affect our reputation, existing brand market and business and could require us to incur additional costs.

Further, though we have obtained registration for the name “Pierri Carlo” under class 24, third parties may infringe our intellectual property, causing damage to our business prospects, reputation and goodwill. Our efforts to protect our intellectual property may not be adequate and any third party claim on any of our unprotected name logo may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time-consuming and costly and a favourable outcome cannot be guaranteed. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property. We cannot assure that any unauthorized use by third parties of the trademarks will not similarly cause damage to our business prospects, reputation and goodwill.

For further details, see “Our Business — Intellectual Property” on page no. 100 of this Prospectus.

- 10. We are dependent on third party transportation providers for the delivery of raw materials and products. Accordingly, continuing increases in transportation costs or unavailability of transportation services for our products, as well the extent and reliability of Indian infrastructure may have an adverse effect on our business, financial condition, results of operations and prospects**

We use third party transportation providers for the supply of most of our raw materials and for delivery of our products to our customers. Transportation strikes could have an adverse effect on our receipt of raw materials and our ability to deliver our products to our customers. Non-availability of ships, barges, trucks and railway cars could also adversely affect our receipt of raw materials and the delivery of our products.

In addition, transportation costs in India have been steadily increasing over the past several years. While usually the end consumer bears the freight cost, we may not always be able to pass on these costs to our customers. Continuing increases in transportation costs or unavailability of transportation services for our products may have an adverse effect on our business, financial condition, results of operations and prospects.

In addition, India’s physical infrastructure is less developed than that of many developed nations, and problems with its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our normal business activity, including our supply of raw materials and the delivery of our products to customers by third-party transportation providers. Any deterioration of India’s physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our business operations, which could have a material adverse effect on our results of operations and financial condition.

11. Our Company has reported certain negative cash flows from its investing and financing activities, details of which are given below. Sustained negative cash flow could impact our growth and business in the future.

Our Company had reported certain negative cash flows from its investing and financing activities in the previous years as per the restated financial statements and the same are summarized as under:

(₹ in lakhs)

Particulars	For period ended September 30, 2017	For the year ended March 31,				
		2017	2016	2015	2014	2013
Cash flow from Operating Activities	75.15	382.69	572.99	398.77	684.41	982.55
Cash flow from Investing Activities	(13.96)	6.35	(133.79)	330.45	86.44	(1,577.42)
Cash flow from Financing Activities	(64.04)	(458.10)	(313.59)	(745.42)	(721.97)	617.21

For details, please refer “Management’s Discussion and Analysis of Financial Conditions and Results of Operations of our Company” on page no. 164 of this Prospectus.

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If our Company is not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

12. We have significant power requirements for continuous running of our factories. Any disruption to our operations on account of interruption in power supply or any irregular or significant hike in power tariffs may have an effect on our business, results of operations and financial condition.

Our factories, godown and offices have significant electricity requirements and any interruption in power supply to our factories, godown and offices may disrupt our operations. Our business and financial results may be affected by any disruption of operations. We depend on third parties for all of our power requirements and currently source the same from Torrent Power. Since we have significant power consumption, any unexpected or significant increase in its tariff can increase the operating cost of factories, godown and offices and production cost which we may not be able to pass on to our customers. There are limited number of electricity providers in area from where we operate due to which in case of a price hike we may not be able to find a cost-effective substitute, which may negatively affect our business, financial condition and results of operations.

13. Our success depends heavily upon our Promoters and Senior Management for their continuing services, strategic guidance and financial support.

Our success depends heavily upon the continuing services of Mr. Sukanraj Shah, Mr. Vicky Shah and Mr. Sahil Shah, who are the natural person in control of our Company. Mr. Vicky Shah currently serves as our Managing Director and Chief Financial Officer and his experience and vision has played a key role in obtaining our current market position. Mr. Sukanraj Shah and Mr. Sahil Shah as Whole Time Directors have also played a pivotal role in the production and marketing areas, respectively. We believe that our relation with our Promoters, who have rich experience in setting up business, developing markets, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Further, our Promoters have also promoted other companies / firms / ventures and may continue to do so. If they divert their attention to the other companies, we may not be able to function as efficiently and profitably as before. We may have to incur additional costs to replace the services of our promoters or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

Further, we also depend significantly on our Key Managerial Persons for executing their day to day activities. If our Promoters / Directors or any member of the senior management team is unable or unwilling to continue in his

present position, we may not be able to replace him easily or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

In addition, we depend on our Executive Directors / Promoters in procuring certain bank loans and for the extension of unsecured loans and advances from time to time. We rely on our Directors and persons in control of our Promoter, in relation to certain of our bank loans for which they have granted certain security and personal guarantees. Further, our Promoter Group have from time to time, extended loans and advances to our Company for various business purposes (“Unsecured Loans”). For details, see “Annexure XXVII – Related Party Transactions” and chapter titled “Financial Indebtedness” on page nos. 160 and 174 respectively of this Prospectus. We cannot assure you that any future financing we obtain without guarantees from our Promoters or from unrelated third-parties will be on terms which are equal to or more favourable than the terms of our past financings.

14. Our Company if not able to manage our growth or to successfully implement our business plan could have an effect on our business, results of operations and financial condition.

The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. Our growth strategy involves focusing on Optimal Utilization of Resources and to develop relationships with customer and suppliers and we may not be able to execute our strategies in the future. For further details, see the section titled “Our Business – Our Strategies” on page no. 92 of this Prospectus. Our success in implementing our growth strategies may be affected by:

- Our ability to identify new markets to expand;
- Our ability to maintain the quality of our products;
- Changes in the Indian regulatory environment in field of Textiles

Any of these factors could impact our results of operations. If our Company is not able to execute our strategy on time and within our estimated budget, or that our expansion and development plans fail to generate the required results, it may adversely impact our profitability. Further, our growth strategies could place significant demand on our management team and other resources and would require us to continuously develop and improve our operational, financial and other controls, none of which can be assured. Any failure on our part to scale up our infrastructure and management could cause disruptions to our business and could be detrimental to our long term business outlook. Further, we operate in a highly dynamic industry, and on account of changes in market conditions, industry dynamics, technological improvements or changes in trends and fashions and any other relevant factors, our growth strategy and plans may undergo changes or modifications, and such changes or modifications may be substantial, and may even include limiting or foregoing growth opportunities if the situation so demands. Our inability to implement our business strategies and sustain our growth may impair our financial growth and thus result in an adverse impact on our Company’s share price.

15. Some of the immovable properties used by us are on lease and leave and licence basis. If we are unable to renew existing lease and leave and license or relocate operations on commercially reasonable terms, there may be an effect on our business, results of operations and prospects.

We do not own some of the premises from where we operate. We have entered into a lease agreement for our manufacturing unit at Bhiwandi and a leave and license agreement for our Registered Office in Mumbai, both of which are renewable based on the terms of the agreement. Periodic renewals of short-term leases may increase our costs, since they are subject to rent escalation. Further, if we are required to relocate our factories and registered office as a result of any termination or non-renewal of our leases and leave and license, we may incur additional cost as a result of such relocation. If we are unable to renew the agreements pursuant to which we occupy the premises on terms and conditions acceptable to us, or at all, we may have to relocate to other places.

Any failure or difficulty faced by us in renewing leases, or disputes or other problems that we may face in the future with lessees may affect our business and prospects. For further details of our Properties, please refer to section titled “Our Business” beginning on page no. 101 of this Prospectus.

16. Our Company has allotted Equity Shares during the preceding one year from the date of the Prospectus which is lower than the Offer Price.

Our Company has allotted the following Equity Shares during the preceding one year from the date of the Prospectus which is lower than the Offer Price:

Date of Allotment	No. of Equity Shares	FV (₹)	Issue Price (₹)	Nature of Allotment	Allotted Person	Benefits Accrued to the Company
July 26, 2017	17,95,460	10	Nil	Bonus Issue	Allotted to all the Shareholders of the company as on the date of allotment	Expansion of Capital

17. Our Company has availed unsecured loan which are repayable on demand. Any demand from the lenders for repayment of such unsecured loan may affect our cash flow and financial condition.

Our Company, as per the restated financial statement, has availed total sum of ₹203.30 lakhs and ₹ 351.35 lakhs as unsecured loan as on September 30, 2017 and March 31, 2017, which may be recalled at any time. Sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer the chapter “Financial Indebtedness” on page no. 174 of this Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

18. We constantly face a credit risk which may in turn affect our complete buying cycle adversely.

As a textile manufacturing and trading Company, our primary competence is the ability to manufacture, finish and market our textile products for various consumer segments, and hence exploit the benefits of variety, economies of scale and credit shortage in the textile trade. Our requirement of working capital is high mainly due to our ability to procure and store sufficient amounts of raw materials and finished goods, thus relieving our units with disruptions and work stoppages. Once the production process is complete, we are required to give sufficient credit period to our customers in order to maintain our customer relations and competitiveness. Our Debtors turnover period is an average approximately 80 days while our Creditors turnover period ranges in approximately 55 days leading to a considerable working capital gap.

Our aforementioned buying cycle is heavily dependent on timely payments being received from our customers. If there is a default in payment from any of our customers or there is any unforeseeable delay in payment, our working capital cycle will be adversely affected. This may lead to our inability to maintain our inventories and thus lack the competitive advantage against various other manufacturers leading to an adverse effect on our business operations and profitability.

19. We have availed of certain loans from Banks, pursuant to the Financing Agreements that we have entered into with them. Pursuant to the terms of such agreements, we require consents from the respective Bankers for a number of corporate actions, including for undertaking this Offer, which have not been obtained as on date. Any failure to obtain such consents may result in a default under the terms of the Financing Agreements.

Pursuant to the Financing Agreements entered into by us with the Bankers, we are required to obtain consents from the respective Bankers to undertake certain actions, including this Offer and for completion of the requirements pertaining to this Offer. Though, we have informed our bankers orally of our intention to undertake this Offer, we have not obtained consents from one these bankers and the same is awaited.

While our Company intends to obtain all the necessary consents in relation to this Offer from our bankers prior to the filing of the Prospectus with the RoC, undertaking this Offer without obtaining these consents, or in contravention of any conditions contained in such contents, may constitute a breach of the Financing Agreements. Any default under the Financing Agreements may enable our bankers to cancel any outstanding commitments, accelerate the repayment and enforce their security interests. If our obligations under the Financing Agreements are accelerated, our financial condition and operations could materially and adversely be affected.

20. The Company has outstanding debtors for a period of more than six months. Inability to recover the same may impact our cash flows and financial condition.

As on March 31, 2017 and September 30, 2017, our Company has ₹ 206.95 lakhs and ₹ 215.32 lakhs of debtors outstanding for more than six months. This amount corresponds to 6.12% and 5.03% of the total debtors outstanding as on March 31, 2017 and September 30, 2017. If we are unable to recover the said amount from our debtors, we have to write-off the same amount as a bad debt resulting in a cash flow shortage and consequently affecting our financial condition.

Further, we cannot guarantee that there will be lower or no debtors outstanding for more than six months in the future and that we will be able to recover the amount for such debtors. In case of such events, we may have recurring bad debts which may adversely affect our business operations and financial conditions.

21. Our Company's manufacturing activities are labour intensive and depend on availability of skilled and unskilled labourers in large numbers. In case of unavailability of such labourers and / or inability to retain such personnel, our business operations could be affected.

Our Company has employed 120 employees all of whom are on our payrolls. The above includes employees in the Top and middle management (including Executive Directors), and also employees who are part of manufacturing unit and office staff. Our operations and performance are labour intensive and depends on our ability to identify, attract and retain both skilled and unskilled labour. In case such labour is unavailable or we are unable to identify and retain such labourers, our business could be adversely affected.

Further, there are instances where we need to hire additional contract labour, either for specialized jobs or during periods of high customer orders. We have not entered into any agreement for hiring additional labourers and thus availability of appropriately skilled labour cannot be guaranteed. Any failure to hire the appropriate labour may impact the operations and impair our client relations.

22. Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions, may result in the postponement of the delivery of products or cause its cancellation. Further, since we do not execute contracts with our customers, the order could be cancelled or there could be changes in scope and / or scheduled delivery of the products. Accordingly, it is difficult to predict with certainty if, when, and to what extent we may be able to deliver the orders placed. Failure to deliver products on time could lead to customers delaying or refusing to pay the amount, in part or full, which may adversely affect our business

In addition, even where a delivery proceeds as scheduled, it is possible that the contracting parties may default or otherwise fail to pay amounts owed. While we have not yet experienced any material delay, reduction in scope, cancellation, execution difficulty, delay or default in payment with regard to the orders placed with us, or any material disputes with customers in respect of any of the foregoing, any such adverse event in the future could materially harm our cash flow position and income. Any delay, modification, cancellation of order by our large customers may have material adverse effect on our financial condition and results of operations.

23. We have high financial indebtedness which could adversely affect our financial condition and results of operations and further we may not be able to meet our obligations under the debt financing agreements.

We have outstanding loans aggregating to ₹ 3,794.74 lakhs as on September 30, 2017 as per restated financial statements from various commercial banks and financial institutions consisting of ₹ 3,507.00 lakhs of secured loans and ₹ 287.74 lakhs of unsecured loans. In the event that we fail to meet our debt servicing obligations under our financing documents, the relevant lenders could declare us to be in default, accelerate the maturity of our obligations or takeover our project or even sell our Company's movable and immovable assets. We cannot assure investors that in the event of any such acceleration we will have sufficient resources to repay these borrowings. Failure to meet obligations under debt financing agreements may have an adverse effect on our cash flows, business and results of operations. Our ability to meet our debt service obligations and to repay our outstanding borrowings will depend primarily upon the cash flows generated by our business. We cannot assure you that we

will generate sufficient cash to enable us to service existing or proposed borrowings. Incurring significant indebtedness may limit our flexibility in planning for or reacting to changes in our business & industry and limit our ability to borrow additional funds. Further, our level of indebtedness has important consequences to us, such as:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- affecting our credit rating;
- limiting our ability to borrow more money both now and in the future; and
- increasing our interest expenditure and adversely affecting our profitability

For further details please refer the chapter “*Financial Indebtedness*” on page no. 174 of this Prospectus.

24. *Our manufacturing and storage units are concentrated only in 1 area in India i.e. Bhiwandi. Our results of operations could be materially and adversely affected if such facilities are disrupted.*

All our manufacturing and trading operations are based in our manufacturing unit and our storage unit, both of which are based in the area of Bhiwandi, Thane in Maharashtra. These units are the one of the main locations from where we sell our manufactured products and also dispatch our traded goods. Because of the concentration of our people and other resources at these units, our results of operations could be materially and adversely affected if one or more of those facilities are damaged as a result of a natural disaster, including an earthquake, flood, fire, or other event that disrupts our business or causes material damage to our property. Further, any disruption of transport services and other infrastructure problems may halt or hinder our manufacturing and trading operations. Also, our operations in these units may be interrupted due to discontinuation / non renewal or cancellation of the existing lease agreements on these places. Since we do not have any back-up facilities, it could be difficult for us to maintain or resume our operations quickly in the aftermath of such a disaster / event. Further, we also do not have any insurance to cover any such loss or damage to our assets.

25. *Our Company depends on timely identification of evolving fashion trends and creating new designs. Any lag on the part of our Company in this regard may adversely affect our business operations.*

The key success factor in the textiles business is in creating appealing designs and colour combinations to create buyer appeal. In order to be in line with this success factor, we maintain a team of in house designers who design and develop the products as per customer’s needs. This team works on the development of designs by analyzing the needs of clients by parameters like latest dyeing combinations, new printing techniques & patterns and most importantly the feedback gained from the sales of the similar products that were designed earlier. Our inability to tap the changing fashion can lead to rejection and obsolescence of our textiles thus damaging goodwill, business operations and financial conditions. It is very important for the designing team and also the Company’s management to have a good understanding of the trends prevailing in that particular country.

26. *Our funding requirements and deployment of the issue proceeds are based on management estimates and actual cost may vary compared with the estimated amount.*

Our funding requirement and deployment of the proceeds of the issue are based on management estimates and our current business plan. The fund requirements and intended use of proceeds have not been appraised by banks or financial institutions and are based on our estimates. In view of the highly competitive nature of the industry in which we operate, we may have to revise our management estimates from time to time and, consequently, our funding requirements may also change as a result of various factors which may not be within the control of our management. This may entail rescheduling, revising or cancelling the planned expenditure and fund requirement and increasing or decreasing the working capital limits maintained from time to time at the discretion of our board. In addition, schedule of implementation as described herein are based on management’s current expectations and our subject to change due to various factors some of which may not be in our control. The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors and is not subject to monitoring by external independent agency. However, the deployment of funds is subject to monitoring by our Audit Committee.

27. The deployment of the Net Proceeds from the Fresh Issue are based on management estimates and have not been independently appraised by any bank or financial institution and is not subject to any monitoring by any independent agency and our Company's management will have flexibility in utilizing the Net Proceeds from the Fresh Issue.

Our Company intends to primarily use the Net Proceeds from the Fresh Issue towards working capital as described in "Objects of the Offer" on page no. 68 of this Prospectus. In terms of Regulation 16 of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the Fresh Issue size is not in excess of ₹ 100 crores. The management of our Company will have discretion to use the Net Proceeds from the Fresh Issue, and investors will be relying on the judgment of our Company's management regarding the application of the Net Proceeds from the Fresh Issue. Our Company may have to revise its management estimates from time to time and consequently its requirements may change. Additionally, various risks and uncertainties, including those set forth in this section "Risk Factors", may limit or delay our Company's efforts to use the Net Proceeds from the Fresh Issue to achieve profitable growth in its business.

Further, pursuant to Section 27 of the Companies Act 2013, any variation in the objects would require a special resolution of the Shareholders and would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to change the objects of the Offer, at a price and manner as specified in Chapter VI-A of the SEBI ICDR Regulations pursuant to the SEBI ICDR (Second Amendment) Regulations, 2016 dated February 17, 2016. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilisation of our Net Proceeds, even if such variation is in our interest. Further, we cannot assure you that our Promoters or the controlling shareholders will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price which may be prescribed by SEBI.

Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of Net Proceeds. If we are unable to enter into arrangements for utilization of Net proceeds as expected and assumed by us in a timely manner or at all, we may not be able to derive the expected benefits from the proceeds of the Issue and our business and financial results may suffer.

28. Our business is dependent on our operating facilities. The loss or shutdown of our facilities could have a material adverse effect on our business, financial condition and results of operations

Our facilities at Bhiwandi are subject to operating risks, such as shutdowns due to the breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, adequate utilisation rates, obsolescence of equipment, labour disputes, strikes, lockouts, industrial accidents, disruption by extremist groups, or any other reason, and the need to comply with the directives and regulations of the Government of India ("GoI") and relevant state government authorities. We are heavily reliant on floor workers at our unit, including those workers who are hired on a daily wage / per piece basis and are not on a fixed payroll. Our inability to continue to procure such services or any disputes with this group of labour would severely affect our operations and may cause a under-utilisation of our capacities or a total shut down.

Our operations involve a significant degree of integration, and our results of operations are dependent on the successful operation of each facility. Although we take precautions to minimize the risk of any significant operational problems at our facilities, our business, financial condition, results of operations and prospects may be adversely affected by any disruption of operations at our facilities.

29. Our insurance coverage may not adequately protect us against all material hazards, which may adversely affect our business, results of operations and financial condition.

Our business, assets and vehicles could suffer damage from fire, natural calamities, misappropriation or other causes, resulting in losses, which may not be fully compensated by insurance. There can be no assurance that the terms of our insurance policies will be adequate to cover any damage or loss suffered by our Company or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim.

Further, our Company is required to renew these insurance policies from time to time and in the event, we fail to renew the insurance policies within the time period prescribed in the respective insurance policies or not obtain at all, our Company may face significant uninsured losses. If our Company suffers a large uninsured loss or if any

insured loss suffered, significantly exceeds our insurance coverage, our business, financial condition and results of operations may be adversely affected.

30. We face competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.

The State of Maharashtra and especially Bhiwandi is a hub for the Textile Industry and this has resulted in huge competitive pressures. We may have to confront pressures in respect of pricing; product quality etc. from the clients and such pressures may put strain on our profit margins which may consequently affect the financial position of our Company. Competition emerges not only from the organized sector but also from the unorganized sector and from both small and big players. We are also in direct competition with the leading textile manufacturing units in India as well as the local units. Our Competitiveness is also measured by the technology we adopt as the textile industry is rapidly growing in India and in International Markets. Some of our clients might export their final products which in turn compel us to meet international standards also. Our inability to compete with this intense competition; local, national and international will have material adverse impact on our Company's financial position.

31. Our Company has entered into certain related party transactions in the past and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.

Our Company has entered into certain transactions with our related parties including our Promoter, Promoter Group, Directors and their relatives. While we believe that all such transactions have been conducted on the arm's length basis, we cannot assure you that we might have obtained more favourable terms had such transactions been entered into with unrelated parties.

Furthermore, it is likely that we may enter into related party transactions in the future. We cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, results of operations, cash flows and financial condition. For details, please refer "*Financial Statements – Related Party Transactions*" on page no. 160 of this Prospectus.

32. There are various negative covenants in the sanction letters issued to us by our lenders, which could put us at a competitive disadvantage and could have an adverse effect on our business, results of operations and financial condition.

The sanction letter issued to us contains provisions that restrict our ability to do, among other things, any of the following:

- To make any change in the constitution/Shareholding pattern without the prior written.
- To avail any loan from any Bank or financial institution without the prior written consent.
- To create or allow to exist any encumbrance or security over assets specifically charged with the bank, without any prior written consent.
- To have any additional current accounts with other Banks, without the knowledge and written consent of the Bank;
- To declare dividends/ withdraw any amount in any form of salary/ remuneration/ incentive/ commission by the Promoters/ Directors in case of overdue with the Bank.
- To change directors/ ownership/ promoters/ major shareholders without the written consent of the Bank.
- To divert any funds and/or launch any new scheme/business without prior permission of the Bank

Further the company has created a charge on its assets in favour of their bankers against the assets of the company. In case of default by the company in repayment of the loans, bankers may exercise their rights over the security, which may be detrimental to the interest of the company. For details, please refer "*Financial Indebtedness*" on page no. 174 of this Prospectus.

Also, we are required to obtain the required consents of the lenders before undertaking certain significant corporate actions. We cannot assure you that the lenders will grant the required approvals in a timely manner, or at all. The time required to secure consents may hinder us from taking advantage of a dynamic market environment. In addition to the restrictions listed above, we are required to maintain certain financial ratios under our financing

agreements. These financial ratios and the restrictive provisions could limit our flexibility to engage in certain business transactions or activities.

Additionally, our borrowings are secured by our movable, immovable or tangible assets (whether existing or future) and by a personal guarantee of our Promoter / Promoter Group. Such securities enable the lenders to cancel any outstanding commitments, accelerate the repayment, exercise cross default provisions and enforce their security interests on the occurrence of events of default such as a breach of financial covenants, failure to obtain the proper consents, failure to perfect security as specified and such other covenants that are not cured. It is possible that we may not have sufficient funds upon such an acceleration of our financial obligations to pay the principal amount and interest in full. Further, if we are forced to issue additional equity to the lenders, your ownership interest in our Company will be diluted. It is also possible that future financing agreements may contain similar or more onerous covenants and may also result in higher interest cost.

If any of these events were to occur, our business, results of operations and financial condition may be adversely affected.

33. Changes in latest technology machinery/ requirement of machinery based on business opportunity may adversely affect our Company's results of operations and its financial condition.

Modernisation and technology up gradation is essential to reduce costs and increase the output. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments. However, our existing manufacturing units have machineries with latest technology and we strive to keep our technology, equipments and machinery in line with the latest technological standards. But in future we may be required to implement new technology or upgrade the machineries and other equipments employed by us. Further, the costs in upgrading our technology and modernizing the plant and machineries may be significant which could substantially affect our finances and operations.

Further in case of machinery requirement based on business opportunity/ latest technology machinery, we will have to incur huge expenditure which may adversely affect our Company's results of operations and its financial condition. Also inability to up-grade our technology and key infrastructure on timely basis may hamper our operations and financial conditions.

34. Our success largely depends on our ability to attract and retain our Key Managerial Personnel. Any loss of our Key Managerial Personnel could adversely affect our business, operations and financial condition.

Our Company is depending significantly on the expertise, experience, and continued efforts of our Key Managerial Personnel. If one or more members of our Key Managerial Personnel are unable or unwilling to continue in his/her present position, it may be difficult to find a replacement, and business might thereby be adversely affected. Our industry requires personnel with specific technical knowledge and experience for our software development and software services.

Competition for Key Managerial Personnel in our industry is intense and it is possible that our Company may not be able to retain existing Key Managerial Personnel or may fail to attract/ retain new employees at equivalent positions in the future. As such, loss of Key Managerial Personnel could adversely affect our business, results of operations and financial condition. For further details on the key managerial personnel of our Company, please refer to the chapter titled "Our Management" beginning on page no. 113 of this Prospectus.

35. In addition to normal remuneration, other benefits and reimbursement of expenses our Directors (including our Promoters) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.

Some of our Directors (including our Promoters) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration, incentives or benefits and reimbursement of expenses. We cannot assure you that our Directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of

other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects.

36. Our Group entity Parag Housing Developments Private Limited has incurred losses in two (2) of the last three (3) financial years .

Total	74.34	74.34	74.34	74.34	74.34	-

We believe these claims will be dismissed, But in the event that any of our contingent liabilities materialize, our business, financial condition and results of operations may be adversely affected. Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the current fiscal year or in the future. For further information, please refer “Annexure XXIX - Contingent Liability” on page no. 162 of this Prospectus.

Many of our orders involve providing services that are critical to the operations of our customers business. Any failure or defect in services could result in a claim against us for substantial damages, regardless of our responsibility for such a failure or defect. Our Company has commitments for safe and timely delivery of the

cargo. Any failure to meet the scheduled timelines set by our customers or loss or damage to cargo may lead to our customers raising claims against us.

Although Our Company is attempting to limit its contractual liability for all the damages, including consequential damages, while rendering the services, our Company cannot be assured that the limitations on liability it provides for, in the service contracts will be enforceable in all cases.

41. Our Promoters have extended personal guarantees in connection with certain of our debt facilities. There can be no assurance that such personal guarantees will be continued to be provided by our Promoters in the future or can be called at any time, affecting the financial.

Our Promoters have provided personal guarantees for our borrowings to secure our loans. If any of these guarantees are revoked, our lenders may require alternative guarantees or collateral or cancellation of such facilities, entailing repayment of amounts outstanding under such facilities. If we are unable to procure alternative guarantees satisfactory to our lenders, we may need to seek alternative sources of capital, which may not be available to us at commercially reasonable terms or at all, or to agree to more onerous terms under our financing agreements, which may limit our operational flexibility. Accordingly, our business, financial condition, results of operations, cash flows and prospects may be adversely affected by the revocation of all or any of the personal guarantees provided by our Promoters in connection with our Company's borrowings.

42. Our Promoters and Promoter Group will continue to retain majority shareholding in us after the Issue, which will allow them to exercise significant influence over us and potentially create conflicts of interest.

The current Issue includes fresh issue of Equity Shares and Offer for Sale by our Promoters and Promoter Group. Our Promoter and Promoter Group may beneficially own approximately 72.76% of our post-Issue equity share capital. As a result, the Promoter Group may have the ability to control our business including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company even if it is in the Company's best interest. In addition, for so long as the Promoter Group continues to exercise significant control over the Company, they may influence the material policies of the Company in a manner that could conflict with the interests of our other shareholders. The Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.

It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected.

44. Any disproportionate increase in labour costs including increase in wage/salary demand, labour unrest or labour claims arising from accidents may adversely affect our business operations and financial conditions.

Our increasing business operations may require our employee strength to increase in future. In the past our Company has not experienced any labour unrest, but there is no assurance that it will not experience the same at any time in the future. Also, there is a possibility that the labour costs increase disproportionately due to increase in wage/salary demand. In this event, if our Company is unable to pass on the increased costs to our customers, our business operations and financial conditions may be adversely affected.

- 45. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Offer which would in turn affect our revenues and results of operations.**

The funds that we receive would be utilized for the Objects of the Fresh Issue as has been stated in the Chapter “Objects of the Offer” on page no. 68 of the Prospectus. The proposed schedule of implementation of the objects of the Offer is based on our management’s estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Offer, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

- 46. The rate of interest for the loans obtained by us from the banks is variable and any increase in interest rates may adversely affect our results of operations and financial condition.**

Our Company is susceptible to changes in interest rates and the risks arising there from. Our sanction letters provide for interest at variable rates with a provision for the periodic resetting of interest rates. Further the lenders are entitled to change the applicable rate of interest, which is a combination of a base rate that depends upon the policies of the RBI and a contractually agreed spread, and in the event of an adverse change in our Company’s credit risk rating. For further details of interest payable on our borrowings, please refer to the chapter titled “Financial Indebtedness” on page no. 174 of this Prospectus Further, in recent years, the Government of India has taken measures to control inflation, which have included tightening the monetary policy by raising interest rates. As such, any increase in interest rates may have an adverse effect on our business, results of operations, cash flows and financial condition.

- 47. The requirements of being a public listed company may strain our resources and impose additional requirements.**

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchanges which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management’s attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

RISK FACTORS RELATED TO EQUITY SHARES

- 48. Any further issuance of Equity Shares by Our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.**

Any future issuance of Equity Shares by our Company could dilute the investors’ shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares, and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

- 49. There is no existing market for our Equity Shares, and we do not know if one will develop. Our stock price may be highly volatile after the Issue and, as a result, you could lose a significant portion or all of your investment.**

There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all and any trading closures at the Stock Exchanges may adversely affect the trading price of our Equity Shares. Prior to the Issue, there has not been a public market for the Equity Shares. Further, we cannot predict the extent to which investor interest will lead to the development of an active trading market on the Stock Exchanges or how liquid that market will become. If an active market does not develop, you may experience difficulty selling the Equity

Shares that you purchased. The Offer Price is not indicative of prices that will prevail in the open market following the Issue. Consequently, you may not be able to sell your Equity Shares at prices equal to or greater than the Offer Price. The market price of the Equity Shares on the Stock Exchanges may fluctuate after listing as a result of several factors, including the following:

- Volatility in the Indian and other Global Securities Markets;
- The performance of the Indian and Global Economy;
- Risks relating to our business and industry, including those discussed in this Prospectus;
- Strategic actions by us or our competitors;
- Investor perception of the investment opportunity associated with the Equity Shares and our future performance;
- Adverse media reports about us, our shareholders or Group Companies;
- Future sales of the Equity Shares;
- Variations in our quarterly results of operations;
- Differences between our actual financial and operating results and those expected by investors and analysts;
- Our future expansion plans;
- Perceptions about our future performance or the performance of transport sector companies generally;
- Performance of our competitors in the Textile industry and the perception in the market about investments in the Textile sector;
- Significant developments in the regulation of the Textile industry in our key locations;
- Changes in the estimates of our performance or recommendations by financial analysts;
- Significant developments in India's economic liberalisation and deregulation policies; and
- Significant developments in India's fiscal and environmental regulations. There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share

Price could fluctuate significantly as a result of market volatility. A decrease in the market price of the Equity Shares could cause you to lose some or all of your investment.

50. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements, and that of our Subsidiary and the dividends they distribute to us. In the past, we have not made dividend payments to the Shareholders of our Company. The Company may decide to retain all future earnings, if any, for use in the operations and expansion of the business. In such situation, the Company may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot state with any certainty whether we will be able to pay dividends in the future. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

51. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if Securities Transaction Tax (STT) has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. Any gain realized on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. In addition, changes in the terms of tax treaties or in their interpretation, as a result of renegotiations or otherwise, may affect the tax treatment of capital gains arising from a sale of Equity Shares.

EXTERNAL RISK FACTORS

52. *The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.*

A majority of the provisions and rules under the Companies Act, 2013 have recently been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in prospectus, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing. Further, companies meeting certain financial thresholds are also required to constitute a committee of the board of directors for corporate social responsibility activities and ensure that at least 2% of the average net profits of the company during three immediately preceding financial years are utilized for corporate social responsibility activities. Penalties for instances of non-compliance have been prescribed under the Companies Act, 2013, which may result in inter alia, our Company, Directors and key managerial employees being subject to such penalties and formal actions as prescribed under the Companies Act, 2013, should we not be able to comply with the provisions of the New Companies Act within the prescribed timelines, and this could also affect our reputation.

To ensure compliance with the requirements of the Companies Act, 2013 within the prescribed timelines, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention. While we shall endeavour to comply with the prescribed framework and procedures, we may not be in a position to do so in a timely manner.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. Additionally, some of the provisions of the Companies Act, 2013 overlap with other existing laws and regulations (such as the corporate governance norms and insider trading regulations). We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013, which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

53. *Any changes in the regulatory framework could adversely affect our operations and growth prospects.*

Our Company is subject to various regulations and policies. For details see section titled “*Key Industry Regulations and Policies*” beginning on page no. 103 of this Prospectus. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse affect on our business, financial condition and results of operations.

54. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations, financial condition and prospects.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations, financial condition and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. The GoI has proposed a comprehensive national goods and services tax ("GST") regime that will combine taxes and levies by the Central and State Governments into a unified rate structure which is proposed to be effective from July 01, 2017. While the GoI and other state governments have announced that all committed incentives will be protected following the implementation of the GST, given the limited availability of

information in the public domain concerning the GST, we are unable to provide any assurance as to this or any other aspect of the tax regime following implementation of the GST. The implementation of this rationalized tax structure may be affected by any disagreement between certain state governments, which may create uncertainty. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable.

Further, the General Anti Avoidance Rules ("GAAR") are proposed to be made effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

We have not determined the impact of these proposed legislations on our business. Uncertainty in the applicability, Interpretation or implementation of any amendment to, or change in, governing law, regulation or policy in the jurisdictions in which we operate, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. Further, the GoI may introduce a waiver or incentive scheme in relation to specific population segments such as MSEs in public interest, pursuant to which we may be required to Issue our products and services at discounted rates. This may affect our business and results of operations.

55. Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse affects on our operations and financial performance.

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

56. Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely affect our business. In addition, any deterioration in relations between India and Pakistan might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

57. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets.

The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us,

thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

58. Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our Company's business.

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our Company's ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could harm our Company's business and financial performance and ability to obtain financing for capital expenditures.

59. We will prepare our financial statements from April 1, 2018 onwards under the Indian Accounting Standards ("Ind AS"). As Ind AS is different in many respects from Indian GAAP, our financial statements from April 1, 2018 may not be comparable to our historical financial statements and our financial statements for the year ending March 31, 2017 prepared under Indian GAAP may not be comparable to our financial statements for the year ending March 31, 2017 prepared under Ind AS for comparison purposes. In addition, our transition to Ind AS reporting could have an adverse effect on our business and results of operations.

We currently prepare our financial statements under Indian GAAP. The Companies (Indian Accounting Standards) Rules, 2015 ("IAS Rules"), as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016, enacted changes to Indian GAAP that are intended to align Indian GAAP further with IFRS. The IAS Rules provide that the financial statements of the companies to which they apply shall be prepared and audited in accordance with Ind AS. Ind AS is different in many respects from Indian GAAP. All NBFCs and HFCs having a net worth of more than ₹ 5,000.00 million are required to mandatorily adopt Ind AS for the accounting period beginning from April 1, 2018, with comparatives for the period ending on March 31, 2017. Although any company may voluntarily implement Ind AS for the accounting period beginning from April 1, 2015, we intend to implement Ind AS for the accounting period beginning from April 1, 2018. As there is not yet a significant body of established practice, such as interpretations of Ind AS, on which to draw in forming judgments regarding the Ind AS implementation and application, we have not determined with any degree of certainty the impact the adoption of Ind AS will have on our financial statements. However, we know that the Ind AS will change our methodology for estimating allowances for doubtful debt losses. Ind AS will require us to value our NPAs by reference to their market value (if a ready market for such loans exists) or to calculate the present value of the expected future cash flows realisable from our loans, including the possible liquidation of collateral (discounted at the loan's effective interest rate) in estimating allowances for doubtful debt losses. This may result in us recognising higher allowances for doubtful debt losses in the future, which will adversely affect our results of our operations. Accordingly, our financial statements for the period commencing from April 1, 2018 may not be comparable to our historical financial statements and our financial statements for the year ending March 31, 2017 prepared under Indian GAAP may not be comparable to our financial statements for the year ending March 31, 2017 prepared under Ind AS for comparison purposes.

In our transition to Ind AS reporting, we may encounter difficulties in the on-going process of implementing and enhancing our management information systems. Our management may also have to divert significant time and additional resources in order to implement Ind AS on a timely and successful basis. Moreover, there is increasing competition for the small number of Ind AS experienced accounting personnel available as more Indian companies begin to prepare Ind AS financial statements. Therefore, our transition to Ind AS reporting could have an adverse effect on our business and results of operations.

SECTION III- INTRODUCTION

SUMMARY OF OUR INDUSTRY

INDIAN TEXTILE INDUSTRY

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 15 per cent of total exports. The textiles industry is also labour intensive and is one of the largest employers. The textile industry has two broad segments. First, the unorganised sector consists of handloom, handicrafts and sericulture, which are operated on a small scale and through traditional tools and methods. The second is the organised sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale.

The textile industry employs about 51 million people directly and 68 million people indirectly. India's overall textile exports during FY 2015-16 stood at US\$ 40 billion.

The Indian textiles industry is extremely varied, with the hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital intensive sophisticated mills sector at the other end of the spectrum. The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of the textile industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles make the Indian textiles sector unique in comparison to the industries of other countries. The Indian textile industry has the capacity to produce a wide variety of products suitable to different market segments, both within India and across the world.

Market Size

The Indian textiles industry, currently estimated at around US\$ 120 billion, is expected to reach US\$ 226 billion by 2023. The Indian Textile Industry contributes approximately 4 per cent to India's Gross Domestic Product (GDP), and 14 per cent to overall Index of Industrial Production (IIP). Indian khadi products sales increased by 33 per cent year-on-year to Rs 2,005 crore (US\$ 311.31 million) in 2016-17 and is expected to exceed Rs 5,000 crore (US\$ 776.33 million) sales target for 2018-19, as per the Khadi and Village Industries Commission (KVIC).

(Source: Textile & Apparel Industry, IBEF)

The total area under cultivation of cotton in India is expected to increase by 7 per cent to 11.3 million hectares in 2017-18, on account of expectations of better returns from rising prices and improved crop yields during the year 2016-17. Indian exports of locally made retail and lifestyle products grew at a compound annual growth rate (CAGR) of 10 per cent from 2013 to 2016, mainly led by bedding bath and home decor products and textiles#. The Government of India targets textile and garment sector exports at US\$ 45 billion for 2017-18.

IMPORT EXPORT IN INDIAN TEXTILES INDUSTRY

The Indian textile Industry is the second largest manufacturer and exporter in the world, second only to China. The industry is of vital importance to the Indian economy. The share of textile and apparel in India's total exports stands at significant 15%. India has a share of 5% of the global trade in textiles and apparels. The industry holds importance from employment point of view as well. It employs 4.5 crore people directly and around 6 crore in allied sectors, including large number of women and rural population. The sector has perfectly aligned with government's key initiatives of Make in India, Skill India, Women empowerment and Rural Youth employment. The Export scenario under textile and apparels is as under:

- Export of textile and apparel products including Handicrafts from India decreased to US\$40 billion during 2015-16 as compared to US\$40.7 during 2014-2015. However, its share in overall export basket of India increased from 13.6% in 2014-2015 to 15% in 2015-2016.
- During 2014-2015, Readymade garments accounted for almost 40% of total textile exports, while in 2015-2016 they accounted for almost 42% of the total textile exports.
- Total textile and apparel exports during 2016(April- Sept) is valued at US\$18.7 billion with a share of 14% in India's total export of US\$ 132 billion during the same period.

COTTON SECTOR

Cotton is one of the most important cash crops and accounts for around 25% of the total global fibre production. Cotton is also one of the most important commercial crops cultivated in India. In the raw material consumption basket of the Indian textile industry, the proportion of cotton is around 59%. It plays a major role in sustaining the livelihood of an estimated 5.8 million cotton farmers and 40- 50 million people engaged in related activities such as cotton processing and trade. India also has the distinction of having the largest area under cotton cultivation in the world i.e. about 11 million hectares. India is the country to grow all four species of cultivated cotton *Gossypium Arboretum* and *Herbaceum* (Asian cotton), *G. Barbadense* (Egyptian cotton) and *G. Hirsutum* (American Upland cotton). *Gossypium Hirsutum* represents 88% of the hybrid cotton production in India and all the current BT cotton hybrids are *G. Hirsutum*. India is the largest producer and 2nd largest exporter of cotton in the World. India is also leading consumer of cotton. The details of production and consumption of cotton during the last 5 years is given below:-

(₹ in lakh bales of 170 Kg each)

DETAILS OF THE FUND REQUIREMENTS

1. Funding Long Term Working Capital Requirements:

Working Capital Cycle:

We operate as a manufacturer and trader of grey fabrics and various other finished fabrics including 100% Cotton – Lycra and Non-Lycra, Blended Cotton Suiting – Chief Value Cotton, Polyester Cotton, 100% Cotton Yarn Dyed, Polyester Viscose, Terry Rayon Suiting, Mock Linen etc. Our manufactured and traded goods are sold under our own brands, namely, Cotbbelly's, Pierricarlo and Earthen Belly.

Our operational infrastructure for the textile manufacturing business is working capital intensive and involves maintaining inventory and debtors at levels that may not be in terms with the industry standards. Further, we are also engaged in trading of textiles which involves credit risk due to differential payment terms with different customers.

Due to intense competition in this industry, from the organised as well from the unorganised sector, we cannot always dictate payment terms with our customers and suppliers. Also, many of our customers are big corporate houses, because of which our current credit period is considerably high and not uniform for different customers. Further, recent volatility in the global economy and the subsequent volatility of economic activity in India, especially in the Textile industry, we are required to maintain higher stocks of raw materials, semi-finished goods and finished goods to cater to last minute demands, to shield ourselves from the volatile pricing and to stay ahead of competition. Also, ready stock enables us to adapt to changing fashion trends much faster. This is one of the major reasons for increase in our working capital requirements.

⁽²⁾ M/s. Bhattar & Co., Chartered Accountants vide letters dated September 11, 2017 and December 27, 2017 have confirmed that the Company’s “Internal Accruals” as on March 31, 2017 and September 30, 2017 is ₹ 4,426.65 lakhs and ₹ 4,432.39 lakhs respectively and the Company’s “Own Funds” as on March 31, 2017 and September 30, 2017 is ₹ 4,523.68 lakhs and ₹ 4,714.53 lakhs, respectively.

Hence, our Company proposes to utilise ₹ 528.50 lakhs of the Net Fresh Issue Proceeds towards working capital requirements for meeting our future business requirements.

Justification for “Holding Period” levels

Inventories	The Company expects its inventory portfolio to be greater with inclusion of broader range of designs, fabrics and types of fabrics required for processing. The Company expects that it will have to keep the stock of various yarns and grey fabrics in line with the requirement of its clients. The Company plans to hold optimum inventory for regular products and keep inventory for products with specific demand. Hence the inventory holding period has been estimated in line with fiscal 2016-17 i.e. to be in the range of 100-105 days for the fiscal 2017-18.
Trade Receivables	Our Company operates in a regulated and organised market, selling our own brand fabrics to various garment manufacturers across India and also manufacturing fabrics for many well established national and multi-national textile brands. Due to this, we have a regular credit period which is also a result of our years of associations with our customers. Hence we believe that going ahead we will witness an average of 70-75 days credit period in the fiscal 2017-18.
Creditors	Trade Payables are mainly for raw materials and purchase of traded goods. To avail the raw material in the quantity, quality and variety as required based on orders on regular basis or even shorter notice basis, we need to maintain good relations with our suppliers. Hence, we believe that these payables will be in proportion to our business operations and hence we estimate the level of creditor’s period to be same as previous fiscal i.e. 70 days for the fiscal 2017-18.

2) General Corporate Purposes

We propose to deploy ₹ 93.50 lakhs, aggregating to 14.23% of the Proceeds of the Fresh Issue towards general corporate purposes, including but not restricted to strategic initiatives, partnerships, joint ventures and acquisitions, meeting exigencies which our Company may face in the ordinary course of business, to renovate and refurbish certain of our existing Company owned/leased and operated facilities or premises, towards brand promotion activities or any other purposes as may be approved by our Board.

OVERVIEW OF THE GLOBAL AND INDIAN ECONOMY

Global Scenario

The US economy bounced back strongly in Q3:2016, underpinned by robust consumer spending and continuing improvement in the labour market. GDP growth decelerated sharply in Q4:2016 due to a large slippage in net exports, even though retail sales, consumer confidence and the purchasing manufacturers' index (PMI) suggested sustained momentum. Domestic demand grew (q-o-q) at the fastest pace in almost two years. Consumer confidence reached a 16-year high in March, though retail sales had slowed down in February. The Institute for Supply Management's (ISM) index suggested manufacturing expanded at its fastest pace in three years in February.

In the Euro area, GDP growth accelerated in H2:2016. Relatively low oil prices and sustained employment gains have provided support to household incomes. Improving consumer confidence and the PMI, which rose to a six-year high in March, indicate that activity continued to expand in Q1:2017. Nonetheless, the region remains vulnerable to a number of headwinds such as the formal beginning of the Brexit process, upcoming elections in several constituent countries and tightening of financial conditions.

The Japanese economy continued to recover at a modest pace even as the momentum weakened in H2:2016. Increases in private consumption and fixed investment were moderate, although there was some uptick in exports and industrial production towards end-2016. The manufacturing PMI improved during January and February but moderated again in March 2017. In the UK, economic growth gained momentum in H2:2016, notwithstanding the uncertainties surrounding the negotiations relating to Brexit, as exports rose substantially following the weakening of the pound. However, manufacturing growth weakened for two consecutive months in February, indicating the possibility of a slowdown in 2017.

As per the Economic Survey 2016-17, the Indian economy should grow between 6.75 and 7.5 per cent in FY 2017-18. The improvement in India's economic fundamentals has accelerated in the year 2015 with the combined impact of strong government reforms, Reserve Bank of India's (RBI) inflation focus supported by benign global commodity prices.

India's consumer confidence index stood at 136 in the fourth quarter of 2016, topping the global list of countries on the same parameter, as a result of strong consumer sentiment, according to market research agency, Nielsen. Moody's has affirmed the Government of India's BAA3 rating with a positive outlook stating that the reforms by the government will enable the country perform better compared to its peers over the medium term.

India has retained its position as the third largest start-up base in the world with over 4,750 technology start-ups, with about 1,400 new start-ups being founded in 2016, according to a report by NASSCOM. India's labour force is expected to touch 160-170 million by 2020, based on rate of population growth, increased labour force participation, and higher education enrolment, among other factors, according to a study by ASSOCHAM and Thought Arbitrage Research Institute (TARI). India's foreign exchange reserves stood at US\$ 366.781 billion as on March 17, 2017 as compared to US\$ 360 billion by end of March 2016, according to data from the RBI.

With the improvement in the economic scenario, there have been various investments leading to increased M&A activity. M&A activity in India more than doubled year-on-year to reach US\$ 61.26 billion in 2016-17. Early-stage start-ups in India are expected to raise US\$ 800 million in 2017, due to greater focus on profitability and sustainable growth, as per a report by InnoVen Capital.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behaviour and expenditure pattern, according to a Boston Consulting Group (BCG) report; and is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by the year 2040, according to a report by PricewaterhouseCoopers. Also, the Prime Minister, Mr Narendra Modi has stated that India has become the world's fastest growing large economy, and is expected to grow five-fold by 2040, owing to a series of policy measures.

INDIAN TEXTILE INDUSTRY

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 15 per cent of total exports. The textiles industry is also labour intensive and is one of the largest employers. The textile industry has two broad segments. First, the unorganised sector consists of handloom, handicrafts and sericulture, which are operated on a small scale and through traditional tools and methods. The second is the organised sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale.

The textile industry employs about 51 million people directly and 68 million people indirectly. India's overall textile exports during FY 2015-16 stood at US\$ 40 billion.

The Indian textiles industry is extremely varied, with the hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital intensive sophisticated mills sector at the other end of the spectrum. The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of the textile industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles make the Indian textiles sector unique in comparison to the industries of other countries. The Indian

textile industry has the capacity to produce a wide variety of products suitable to different market segments, both within India and across the world.

Market Size

The Indian textiles industry, currently estimated at around US\$ 120 billion, is expected to reach US\$ 226 billion by 2023. The Indian Textile Industry contributes approximately 4 per cent to India's Gross Domestic Product (GDP), and 14 per cent to overall Index of Industrial Production (IIP). Indian khadi products sales increased by 33 per cent year-on-year to Rs 2,005 crore (US\$ 311.31 million) in 2016-17 and is expected to exceed Rs 5,000 crore (US\$ 776.33 million) sales target for 2018-19, as per the Khadi and Village Industries Commission (KVIC).

(Source: Textile & Apparel Industry, IBEF)

The total area under cultivation of cotton in India is expected to increase by 7 per cent to 11.3 million hectares in 2017-18, on account of expectations of better returns from rising prices and improved crop yields during the year 2016-17. Indian exports of locally made retail and lifestyle products grew at a compound annual growth rate (CAGR) of 10 per cent from 2013 to 2016, mainly led by bedding bath and home decor products and textiles#. The Government of India targets textile and garment sector exports at US\$ 45 billion for 2017-18.

Investments

The textiles sector has witnessed a spurt in investment during the last five years. The industry (including dyed and printed) attracted Foreign Direct Investment (FDI) worth US\$ 2.47 billion during April 2000 to March 2017.

Some of the major investments in the Indian textiles industry are as follows:

- Future Group is planning to open 80 new stores under its affordable fashion format, Fashion at Big Bazaar (FBB), and is targeting sales of 230 million units of garments by March 2018, which is expected to grow to 800 million units by 2021.

COTTON SECTOR

Cotton is one of the most important cash crops and accounts for around 25% of the total global fibre production. Cotton is also one of the most important commercial crops cultivated in India. In the raw material consumption basket of the Indian textile industry, the proportion of cotton is around 59%. It plays a major role in sustaining the livelihood of an estimated 5.8 million cotton farmers and 40- 50 million people engaged in related activities such as cotton processing and trade. India also has the distinction of having the largest area under cotton cultivation in the world i.e. about 11 million hectares. India is the country to grow all four species of cultivated cotton *Gossypium Arboretum* and *Herbaceum* (Asian cotton), *G. Barbadense* (Egyptian cotton) and *G. Hirsutum* (American Upland cotton). *Gossypium Hirsutum* represents 88% of the hybrid cotton production in India and all the current BT cotton hybrids are *G. Hirsutum*. India is the largest producer and 2nd largest exporter of cotton in the World. India is also leading consumer of cotton. The details of production and consumption of cotton during the last 5 years is given below:-

ROAD AHEAD

The future for the Indian textile industry looks promising, buoyed by both strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with the entry of several international players like Marks & Spencer, Guess and Next into the Indian market. The apparel market in India is estimated to grow at a Compound Annual Growth Rate (CAGR) of 11.8 per cent to reach US\$ 180 billion by 2025.

The Indian cotton textile industry is expected to showcase a stable growth in FY2017-18, supported by stable input prices, healthy capacity utilisation and steady domestic demand.

RAW MATERIALS

The main raw materials used in the manufacture of finished fabrics are –

Yarn

All our yarn is sourced from various yarn manufacturers and traders locally as well as in other parts of Maharashtra and Gujarat. Our factory being located in an area which is a textile hub and an industrial area we have an established infrastructure and thus the supply of raw material is done with sufficient ease.

Grey Fabric

Though we process the yarn to manufacture grey fabrics, there are times when we run at near full capacities or a sudden inflow of orders are witnessed. In such scenarios we directly procure Grey Fabric which is further sent for processing and converted into finished fabric.

MANUFACTURING PROCESS

Steps Involved in Our Manufacturing Process

Our Company purchases Yarn from various Mills or Traders. We use both natural and man-made yarns such as cotton, polyester, nylon, viscose etc. These raw materials are received in paper rolls, packed in cartons.

The objective of warping process is to convert the yarn packages into a warper's beam having desired width and containing requisite number of ends. Uniform tension is maintained on individual yarns during warping. Using the warping machine, through hundreds of yarn cones are set regularly as design. The yarn are wound on the warper's beam in the form of a sheet composed of parallel bands of yarn each coming out from a package placed on the creel. Warp ends are wound onto the warping beam in accordance with the required weave, total number of ends, length and the required warp density (Ends per Inch - EPI) of the fabric. A simplified view of the warping process is shown below:

The objective of warp sizing is to improve the weave ability of yarns by applying a uniform coating on the yarn surface so that protruding hairs are laid on the yarn surface. During the weaving process, the warp yarns are subjected to abrasion with various loom components. Size coating protects the yarn structure from abrasion. Therefore, the warp breakage rate in the loom reduces. Our company outsources the process of sizing to various third parties on invoice basis.

After we receive the yarn from sizing, it is then given for Drawing / Denting. The Drawing diagram indicates which warp end is attached to which harness. Denting means drawing the warp thread through the dent as required by drawing plan and this determines more accurately the width of the fabric and the ends per centimetre.

Fabric weave design implies the pattern of interlacement between the warp and weft yarns. The design influences the aesthetics as well as the properties of the woven fabrics. The design of woven fabrics is manipulated by changing the Drafting and Lifting Plan.

Once the design is finalized, we begin the weaving process. After setting up the weaving machine on the beam the yarn has to be drawn through the steel reeds one by one by the man-made way and then start to weave into different kinds of fabrics based on the customers' demands.

The fabrics so produced are subjected to rigorous testing and quality inspection after which they are bundled up as rolls of cloth in various sizes as per the customer's requirements.

The above manufacturing process includes certain procedures involving sizing and dyeing which we do not undertake in our manufacturing unit. Hence these processes are outsourced to various third parties which carry out these processes as per our specifications.

Development of Design

There is a continuous process of conceptualization and development of design in the Fabrics as per the liking and changing trends of the end user's habits. Our design team continuously works to make innovative designs. This process is undertaken considering the tastes, trends, regions and habits of the target customers.

Our Company is well equipped with an in-house design studio to prepare innovative designs for our customers. Normally, different designs are made by our designing team and samples of such designs are sent to our customers like Raymond, Siyaram's, Arvind, etc. Once the design is approved or the necessary modifications are made as per the customer's suggestion, the manufacturing of the product commences.

In addition, our designing team also design and create samples for our own branded products which are approved by our management. Products under our brands like Pierricarlo, Cotbbelly's and Earthen Belly are made with these designs keeping in mind the latest trends, fashions and regional tastes and preferences.

TESTING AND QUALITY CONTROL

We maintain high standards for quality control and have semi – automatic / mechanical machines and manual checking being operated by skilled operators under proper quality control and strict supervision. We have Rolling cum checking machines at both our manufacturing and packing & storing units.

Central Sales tax (“**CST**”) is levied on the sale of movable goods in the course of inter-state trade or commerce. In India, sales tax is levied both at the union level under the Central Sales Tax Act, 1956 as well as the state level under the respective state legislation. Goods sold within the jurisdiction of the state are charged to Value Added Tax (“**VAT**”) in accordance with the VAT statute of that state.

CST is payable by a dealer (i.e. a person who carries on the business of buying, selling, supplying or distributing goods) on his sales turnover at the rate prescribed in the VAT statute of the State from where the movement of the goods originate. However, a dealer is entitled to a concessional rate of 2% CST on goods which are sold to another registered dealer who intends to further re-sell them or use them in the manufacture or processing for further sale or for certain other specified purposes, subject to the condition that purchasing dealer issues a statutory Form C to the selling dealer.

Value Added Tax

Value Added tax (“**VAT**”) is a system of multi-point levies on each of the purchases in the supply chain with the facility of set-off input tax on sales whereby tax is paid at the stage of purchase of goods by a trader and on purchase of raw materials by a manufacturer. VAT is based on the value addition of goods, and the related VAT liability of the dealer is calculated by deducting input tax credit for tax collected on the sales during a particular period.

VAT is a consumption tax applicable to all commercial activities involving the production and distribution of goods and the provisions of services, and each State that has introduced VAT has its own VAT Act under which persons liable to pay VAT must register and obtain a registration number from the Sales Tax Officer of the respective State.

Such registrations can be amended, as well as cancelled by the proper office on receipt of application by the registered person or his legal heirs. D. Other Legislations

The Indian Contract Act, 1872

It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

The Specific Relief Act, 1963

The Specific Relief Act is complimentary to the provisions of the Contract Act and the T.P. Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. ‘Specific performance’ means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

Section 18 of the Trademarks Act requires that any person claiming to be the proprietor of a trade mark used or proposed to be used by him, must apply for registration in writing to the registrar of trademarks. The trademark, once applied for and which is accepted by the Registrar of Trademarks (“**the Registrar**”), is to be advertised in the trademarks journal by the Registrar. Oppositions, if any, are invited and, after satisfactory adjudications of the same, a certificate of registration is issued by the Registrar. The right to use the mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is 10 (ten) years, which may be renewed for similar periods on payment of a prescribed renewal fee.

The Registration Act, 1908

The Registration Act, 1908 was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. 10. Competitive Conditions

Despite the fact that we are not affected by competition in the short-term, our results of operations could be affected by competition in the textile industry in India and in abroad in the future. We expect competition to intensify due to possible changes in government policy, existing competitors further expanding their operations and our entry into new markets where we may compete with well-established fabric processing companies. This we believe may impact our financial condition and operations.

For example, if a Bidder/Applicant has Bid for three options in the Bid cum Application Form and such Bidder/Applicant is changing only one of the options in the Revision Form, the Bidder/Applicant must still fill the details of the other two options that are not being revised, in the Revision Form. In case the Bid Amount exceeds ₹ 200,000 due to revision of the Bid or for any other reason, the Bid may be considered, subject to eligibility, for allocation under the Non-Institutional Category, not being eligible for Discount (if applicable) and such Bid may be rejected if it is at the Cut-off Price. - a) All Bidders/Applicants are required to make payment of the full Bid Amount (less Discount, if applicable) along with the Bid Revision Form. In case of Bidders/Applicants specifying more than one Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less discount offered, if any.
- b) Bidder/Applicant may Issue instructions to block the revised amount based on cap of the revised Price Band (adjusted for the Discount (if applicable) in the ASBA Account, to the same Designated Intermediary through whom such Bidder/Applicant had placed the original Bid to enable the relevant SCSB to block the additional Bid Amount, if any.

If, however, the Bidder/Applicant does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for may be adjusted downwards for the purpose of Allotment, such that additional amount is required blocked and the Bidder/Applicant is deemed to have approved such revised Bid at the Cut-off Price.

5.6 BASIS OF ALLOCATION

- a) The SEBI ICDR Regulations, 2009 specify the allocation or Allotment that may be made to various categories of Bidders/Applicants in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum

Application Form and in the RHP/Prospectus. For details in relation to allocation, the Bidder/Applicant may refer to the RHP/Prospectus.

- b) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLMs and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations, 2009. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- c) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders/Applicants may refer to the RHP/ Prospectus.
- d) Illustration of the Book Building and Price Discovery Process Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹ 20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer and the Selling Shareholders, in consultation with the BRLMs, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

e) **Alternate Method of Book Building**

In case of FPOs, Issuers may opt for an alternate method of Book Building in which only the Floor Price is specified for the purposes of Bidding (“**Alternate Book Building Process**”).

The Issuer may specify the Floor Price in the RHP/ Prospectus or advertise the Floor Price at least one Working Day prior to the Bid/ Issue Opening Date. QIBs may Bid at a price higher than the Floor Price and the Allotment to the QIBs is made on a price priority basis. The Bidder with the highest Bid Amount is allotted the number of Equity Shares Bid for and then the second highest Bidder is Allotted Equity Shares and this process continues until all the Equity Shares have been allotted. RIIs, NIIs and Employees are Allotted Equity Shares at the Floor Price and Allotment to these categories of Bidders is made proportionately. If the number of Equity Shares Bid for at a price is more than available quantity then the Allotment may be done on a proportionate basis. Further, the Issuer may place a cap either in terms of number of specified securities or percentage of issued capital of the Issuer that may be Allotted to a single Bidder, decide whether a Bidder be allowed to revise the bid upwards or downwards in terms of price and/or quantity and also decide whether a Bidder be allowed single or multiple bids.

SECTION 6: ISSUE PROCEDURE IN FIXED PRICE ISSUE

Applicants may note that there is no Bid cum Application Form in a Fixed Price Issue. As the Issue Price is mentioned in the Fixed Price Offer therefore on filing of the Prospectus with the RoC, the Application so submitted is considered as the Application Form.

Applicants may only use the specified Application Form for the purpose of making an Application in terms of the Prospectus which may be submitted through the Designated Intermediary.

Applicants may submit an Application Form either in physical form to the any of the Designated Intermediaries or in the electronic form to the SCSB or the Designated Branches of the SCSBs authorising blocking of funds that are available in the bank account specified in the Application Form only (“ASBA Account”). The Application Form is also made available on the websites of the Stock Exchanges at least one day prior to the Bid/ Issue Opening Date.

In a fixed price Issue, allocation in the net Issue to the public category is made as follows: minimum fifty per cent to Retail Individual Investors; and remaining to (i) individual investors other than Retail Individual Investors; and (ii) other Applicants including corporate bodies or institutions, irrespective of the number of specified securities applied for. The unsubscribed portion in either of the categories specified above may be allocated to the Applicants in the other category.

For details of instructions in relation to the Application Form, Bidders/Applicants may refer to the relevant section of the GID.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

For Basis of Allotment to Anchor Investors, Bidders/Applicants may refer to RHP/Prospectus. The Issuer is required to receive a minimum subscription of 90% of the Issue (excluding any Issue for Sale of specified securities). However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

7.1 ALLOTMENT TO RIIs

Bids received from the RIIs at or above the Issue Price may be grouped together to determine the total demand under this category. If the aggregate demand in this category is less than or equal to the Retail Category at or above the Issue Price, full Allotment may be made to the RIIs to the extent of the valid Bids. If the aggregate demand in this category is greater than the allocation to in the Retail Category at or above the Issue Price, then the maximum number of RIIs who can be Allotted the minimum Bid Lot will be computed by dividing the total number of Equity Shares available for Allotment to RIIs by the minimum Bid Lot (“**Maximum RII Allottees**”). The Allotment to the RIIs will then be made in the following manner:

- a) In the event the number of RIIs who have submitted valid Bids in the Issue is equal to or less than Maximum RII Allottees, (i) all such RIIs shall be Allotted the minimum Bid Lot; and (ii) the balance available Equity Shares, if any, remaining in the Retail Category shall be Allotted on a proportionate basis to the RIIs who have received Allotment as per (i) above for the balance demand of the Equity Shares Bid by them (i.e. who have Bid for more than the minimum Bid Lot).
- b) In the event the number of RIIs who have submitted valid Bids in the Issue is more than Maximum RII Allottees, the RIIs (in that category) who will then be Allotted minimum Bid Lot shall be determined on the basis of draw of lots.

7.2 ALLOTMENT TO NIIs

Bids received from NIIs at or above the Issue Price may be grouped together to determine the total demand under this category. The Allotment to all successful NIIs may be made at or above the Issue Price. If the aggregate demand in this category is less than or equal to the Non-Institutional Category at or above the Issue Price, full Allotment may be made to NIIs to the extent of their demand. In case the aggregate demand in this category is greater than the Non-Institutional Category at or above the Issue Price, Allotment may be made on a proportionate basis up to a minimum of the Non-Institutional Category.

7.3 ALLOTMENT TO QIBs

For the Basis of Allotment to Anchor Investors, Bidders/Applicants may refer to the SEBI ICDR Regulations, 2009 or RHP/Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner:

- a) In the first instance allocation to Mutual Funds for up to 5% of the QIB Category may be determined as follows: (i) In the event that Bids by Mutual Fund exceeds 5% of the QIB Category, allocation to Mutual Funds may be done on a proportionate basis for up to 5% of the QIB Category; (ii) In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Category then all Mutual Funds may get full Allotment to the extent of valid Bids received above the Issue Price; and (iii) Equity Shares remaining unsubscribed, if any and not allocated to Mutual Funds may be available for Allotment to all QIBs as set out at paragraph 7.4(b) below;
- b) In the second instance, Allotment to all QIBs may be determined as follows: (i) In the event of oversubscription in the QIB Category, all QIBs who have submitted Bids above the Issue Price may be Allotted Equity Shares on a proportionate basis for up to 95% of the QIB Category; (ii) Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis along with other QIBs; and (iii) Under-subscription below 5% of the QIB Category, if any, from Mutual Funds, may be included for allocation to the remaining QIBs on a proportionate basis.

7.4 ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)

- a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Issue Price will be at the discretion of the issuer in consultation with the Investor Selling Shareholder and the BRLMs, subject to compliance with the following requirements:
 - 1) not more than 60% of the QIB Category will be allocated to Anchor Investors;
 - 2) one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and

- c) **In the event that the Issue Price is higher than the Anchor Investor Issue Price:** Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Issue Price and the Anchor Investor Issue Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors.
- d) **In the event the Issue Price is lower than the Anchor Investor Issue Price:** Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

7.5 BASIS OF ALLOTMENT FOR QIBs (OTHER THAN ANCHOR INVESTORS), NIIs AND RESERVED CATEGORY IN CASE OF OVER-SUBSCRIBED ISSUE

In the event of the Issue being over-subscribed, the Issuer may finalise the Basis of Allotment in consultation with the Designated Stock Exchange in accordance with the SEBI ICDR Regulations, 2009.

The allocation may be made in marketable lots, on a proportionate basis as explained below:

- a) Bidders may be categorized according to the number of Equity Shares applied for;
- b) The total number of Equity Shares to be Allotted to each category as a whole may be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over-subscription ratio;
- c) The number of Equity Shares to be Allotted to the successful Bidders may be arrived at on a proportionate basis, which is total number of Equity Shares applied for by each Bidder in that category multiplied by the inverse of the over-subscription ratio;
- d) In all Bids where the proportionate Allotment is less than the minimum Bid Lot decided per Bidder, the Allotment may be made as follows: the successful Bidders out of the total Bidders for a category may be determined by a draw of lots in a manner such that the total number of Equity Shares Allotted in that category is equal to the number of Equity Shares calculated in accordance with (b) above; and each successful Bidder may be Allotted a minimum of such Equity Shares equal to the minimum Bid Lot finalised by the Issuer;
- e) If the proportionate Allotment to a Bidder is a number that is more than the minimum Bid lot but is not a multiple of one (which is the marketable lot), the decimal may be rounded off to the higher whole number if that decimal is 0.5 or higher. If that number is lower than 0.5 it may be rounded off to the lower whole number. Allotment to all Bidders in such categories may be arrived at after such rounding off; and
- f) If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares Allotted to the Bidders in that category, the remaining Equity Shares available for Allotment may be first adjusted against any other category, where the Allotted Equity Shares are not sufficient for proportionate Allotment to the successful Bidders in that category. The balance Equity Shares, if any, remaining after such adjustment may be added to the category comprising Bidders applying for minimum number of Equity Shares.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), issued consolidated FDI Policy, which with effect from June 07, 2016 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on June 7, 2016. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company, the Selling Shareholders and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.
